

OVER 20,000 AT WOODSTOCK FAIR YESTERDAY

Scene of turn and home stretch of Parlor track at Woodstock yesterday afternoon where three Grand Circuit horses each won a heat in the big Free-For-All, and ten thousand dollars changed hands in the betting ring. Woodstock has one of the fastest tracks in Eastern Canada, and although it was heavy yesterday after a rain storm, a Free-For-Aller managed to step the distance in 2.07 1/4.

WOODSTOCK ENTERTAINS A RECORD BREAKING CROWD SECOND EXHIBITION DAY

Well Over Twenty Thousand Persons Were in Town to See the Fair and Enjoy the Horse Races—List of Prize Winners in Sheep and Cattle Classes.

Special to Journal

Woodstock, N. B., Sept. 13—The clouds opened up in this vicinity Tuesday night and poured forth torrential rains with discouraging precision. The downpour continued from 11 o'clock Tuesday night until 7 o'clock Wednesday morning, leaving an overcast sky that was threatening and forboding. Despite the early outlook for a disagreeable day automobiles, loaded to their capacity, began to arrive in Woodstock at six o'clock this morning to secure vantage points on Connell Park for the big day of the exhibition. Over 20,000 people were in attendance at today's show. Had weather conditions been favorable there would have been another 10,000 present. There were 2000 automobiles, by actual count, parked on the ground and easily 1000 more parked in the city, that could not get on to the grounds. The collection of automobiles was an exhibition in itself worth travelling miles to see. The gathering on Connell Park today was the largest ever seen on any similar occasion in New Brunswick, unless it be the Labor Day crowd at the opening of the St. John Exhibition. It was handled in a most skillful manner by the police force under Chief Kelley. There was not an accident or any unfortunate incident to mar the pleasure of the day. The race course was lined with a sea of humanity which congregated around the track, the stand and other reservations being unable to hold the people who wished to see the races. Stock judging started today but did not advance far. The dairy herds were completed, at least the Ayrshire classes, with McIntyre Bros. of Sussex, carrying off premier honors, securing every first but one. There were three herds in competition. The judging of sheep was completed today. Tomorrow the judge expects to finish the judging of horses, which was started today, and also of beef cattle. The stock shed and Exhibition Hall were the Mecca for thousands throughout the day. The high grade exhibits found in these departments were made attractive to many than were the horse races, which were of the best. Aviator Bradford performed all kinds of aerial stunts during the afternoon. He looped the loop, made nose dives, and did all the tricks known to the profession. Hon. D. W. Mersereau, Minister of Agriculture, gave a special prize today for the best arranged bouquet of cut flowers. His act was greatly appreciated by the management.

Following are the results of today's judging:

ONE FREED AND SENT UP FOR TRIAL

Fred and John Thomson Charged With Destroying Property at Spoon Island—Liquor Cases Dealt With.

Special to The Journal.

Gagetown, Sept. 13—On Friday morning, James Edmonds, of Keswick, and James Rathburn, of Hibernia, were brought before Magistrate T. Sherman Peters on separate charges of having violated the Canada Temperance Act. James Edmonds was charged with having liquor in his possession other than in his private dwelling. He pleaded not guilty, but after considerable evidence had been heard, Magistrate Peters found him guilty and he was fined \$100 and costs, which amount was paid.

James Rathburn, who is a son of George B. Rathburn, of Hibernia, was arrested in York County, at the same time as Edmonds, on the charge of selling intoxicating liquor without a license. He also pleaded not guilty. When the evidence had been heard, he was found guilty of the charge laid against him, and was fined \$200 and costs. In default of payment he was sentenced to six months in the County jail at Gagetown.

The two men were arrested in York County about a week ago. The pair had entered into an agreement to manufacture liquor on Edmonds' property at Keswick, York county and to take it down to the granite quarries at Spoon Island to sell to the workmen there. Chief Inspector Hawthorne and Sub Inspector Saunders, who have been working on the case, found a quantity of mash, and two of three large bottles of moonshine on Edmonds' property.

The case of Fred and John Thompson, of Hampstead, charged with destroying property at the quarries of B. Mooney and Sons, Ltd., Spoon Island, was resumed on Saturday afternoon. The two young men were charged with having blown up the boiler at the quarries with dynamite, having cut the cables holding a block of granite of large size, and with destroying a gasoline engine. The charge of destroying the boiler was taken up on August 29, and on Saturday the other two charges were reviewed.

Six witnesses were examined but their evidence brought out little or nothing to connect the two Thompsons with these misdemeanors and the case, as regards the cutting of the guy ropes and injuring of the engine, was dismissed. His Honor, Magistrate Peters, also found no evidence connecting Fred Thompson with the blowing up of the boiler, and he was discharged. John Thompson, however, was held for trial. He was also separately charged with having destroyed a rowboat belonging to the quarry some time ago, and was sent up for trial on this charge. He will come up for trial at the next sitting of the Supreme Court in October.

Francis M. O'Neill, clerk of the peace, conducted the prosecution, while R. B. Hanson, M. P., K. C., appeared for the prisoners. They had been out on bail furnished by Dunca C. Slipp, of Hampstead, and W. M. Jenkins, M. D., of Gagetown.

Cooperation of G. T. R. Officials

Advancing Interests of Canada's Nationally Owned Lines Says W. D. Robb.

Toronto, Sept. 11—"Each day is bringing forth fresh evidence of the splendid manner in which the personnel of the Grand Trunk has thrown itself into the work of advancing the interests of Canada's nationally owned railways."

This was one of the striking statements made by Mr. W. D. Robb, Vice-President and General Manager of the Grand Trunk Railway System, in an interview given here today.

"In my fifty years of experience through the various grades of the railway's service," continued Mr. Robb, "I have learned to appreciate to the full the efficiency of the Grand Trunk men. They have always worked hard and intelligently, often under difficult circumstances. They are now responding with enthusiasm to the call that we have made to them to support in every way possible the great new national organization of which they are so important a part."

"Heads of departments, and the men under them, have been asked to make every endeavor to create new records in operating efficiency and in obtaining new business for the road. When it is stated that the Grand Trunk Railway System has on its payrolls nearly 40,000 employees it will be readily recognized how powerful their influence may—and will be—in the community. With the workers of the railway putting forth every effort to forward the government owned railways we look with confidence to receive the unstinted support of the public in our labors. The encouragement that they can give us will be invaluable. I desire it to be known that it will be the unvarying policy of the present administration of the Grand Trunk to take the public into its confidence, to tell them of its problems, and to invite their suggestions."

EXAMINATIONS FOR SCALERS' LICENSE HELD YESTERDAY

Court Considers in Matter of Security Export Co. vs. Provincial Secretary-Treasurer.

Special to Journal
Fredericton, Sept. 13—The appellate division of the Supreme Court continued its session here this afternoon and Mr. Gerton, of the Quebec bench, to whom the courtesy of the court was extended yesterday, was heard in support of a rule nisi to quash a warrant in the matter of the King vs. Hon. J. E. Hetherington, provincial secretary-treasurer, ex-parte Security Export Company Ltd. J. P. Byrne, attorney general, concluded his argument early in the afternoon. The court will consider.

In re Bessie May Comeau, an infant, an appeal from a decision of Chief Justice McKeown in Habeas Corpus proceedings, D. Mullin, K. C., moved for the matter be placed at the foot of the docket, and the court so ordered. J. J. F. Winslow, K. C., consenting.

In the King vs. Walter Limerick, police magistrate, Fredericton, ex-parte Alonzo Staples, Mr. P. J. Hughes, K. C., showed cause against a rule nisi to quash a conviction for selling intoxicating liquors according to law. Mr. J. J. F. Winslow, K. C., for Staples, had alleged that offence was not clearly charged, and that it a rule nisi to quash a conviction for what offence his client had been convicted. Mr. Hughes opened with the argument that it was not necessary under the Intoxicating Liquor Act of 1916 to allege the offence definitely, and cited sections of the Act in support of his contention.

The semi-annual examinations for New Brunswick scalers' licenses were held here today. Richard McFadden, chief scaler for the New Brunswick Railway Co. and A. T. Murchie, chief scaler for the province being in charge. The morning was occupied with examination in scaling at Fraser's Mill and in the afternoon applicants wrote examinations at the parliament buildings. Under the New Brunswick Scalers' Act which was adopted at a meeting of the Advisory Board here yesterday, all scalers working on Crown lands whether in the employ of the government or of a private concern will have to hold provincial licenses. These provisions will go into effect on October 1st, 1923. Those who stood the examinations are as follows: Harry Malone, Stanley; John Grotty, Stanley; Robert McCable, St. Stephen; Gordon R. Hovey, Boies town; L. J. Harrigan, Chelmsford; Victor Russell, Millerton; H. D. Morris, Chatham; Abram Vanderbeck, Millerton; J. R. McAlloon, Stanley; J. T. Little, Escuminac, P. Q.; H. W. Fearon, Broad Lands, P. Q.; George A. Harper, Campbellton; R. S. McBeath, Campbellton; E. J. Gillis, Campbellton; John Farrer, Campbellton; W. P. Burns, Campbellton.

PROPOSED ADDITIONS TO MARKET BUILDING

City Council of Moncton Considering Advisability of Adding Another Story to Structure.

Moncton, N. B., Sept. 13—At a meeting of the city fathers here a few days ago the inadequacy of the Moncton market to take care of the requirements of vendors and citizens was discussed at some length and a notice of motion was given that the city engineer be authorized to make an estimate of the cost of a one story extension to the present market building, and that after this estimated cost and the proposed erection of the additions was again discussed before the next meeting of the council, that the proposal be submitted to the citizens for their approval, at the civic election in January next. A notice of motion was also given in respect to the needs of an abattoir here and was worded as follows: "That in order to make the inspection of food in the city what it should be the establish-

ment of a municipal slaughter house and abattoir seems absolutely necessary, therefore it is moved that the city clerk, food inspector and city engineer be authorized to collect such data as to the style, probable cost, what assistance if any will be furnished by the Dominion and Provincial governments, for such a building, and such other information as may be necessary to have the matter voted on by the citizens at the next election."

DUTCH FARMERS MAY SETTLE IN CANADA

Gov't of Holland Will Assist Agriculturists to Emigrate to This Country.

Ottawa, Sept. 13—(Canadian Press)—An influx of experienced agriculturists from Holland to Canada is likely, according to Baron J. C. Sandburg, who left Ottawa today for Toronto, after interviewing Hon. Charles Stewart, Minister of the Interior, and other members of the Government. Baron Sandburg was in Ottawa representing the government of Holland, which proposes a scheme of assisted emigration of farmers and agricultural laborers and their families.
