

NEWS GLEANED THROUGHOUT NEW BRUNSWICK

SHEDIAC

Shediac, Nov. 25—Despite Wednesday being one of the most disagreeable days of the season, a large meeting of the Red Cross met in Tipperary Hall, on which occasion Mrs. Dr. Ferguson and Miss Burns of Moncton, addressed the meeting with regard to matters concerning the work of district nurses, and Victorian Order nurses.

It had been suggested at a recent meeting, the advisability of having a nurse in our community, and the visitors gave us much valuable information, which was highly appreciated by all present and a vote of thanks moved by Miss Evans, and seconded by Mrs. Oulton, was tendered the ladies on behalf of the society. The visitors had to leave the meeting at the close of their remarks, owing to returning to Moncton by the 3.30 train. Following their departure the meeting was called to order and after discussing different matters it was decided to form a committee to find out from certain sources what help might be available towards helping the Society with regard to the maintenance of a nurse.

Ladies on that committee are Mrs. J. V. Bourque and Mrs. H. W. McDonald, who will give a report at the next meeting. It was decided that the Society meet on the first Tuesday evening in each month. The meeting was presided over by the President, Mrs. J. A. Kelly, who in a few pleasing remarks introduced the visitors to the Society, and explained the object of their visit.

Mrs. Belliveau of Grand Falls was a visitor in town last week. The remains of the late Paul Belliveau of Memramcook, who passed away at the home of a friend here, after a very brief illness, were taken to his old home Scoudouc, this morning. UNCLE DICK'S TALK

Dear Boys and Girls:—

If you have read the Saturday chat, you will see that we are going to have a Corner every day, and so there will be a message of some kind from me and all kinds of news from the cousins daily. We shall have to think up some bright ideas and make the Corner fairly sparkle with happiness and cheer. Some of you have spoken of the snow. Our first storm came last week and made the sidewalks very slippery and several of the older people fell and hurt themselves quite badly. I heard one lady say, "Oh, I am so sorry that the snow has come, for I hate to go out when it is so dangerous walking!" A number of children nearby jumped and laughed at the snow and out they came with their sleds and the air was merry with the gay little voices. It is queer, but it is true, that what is pleasure for one is cause for regret for others, in this funny old world.

I want you to think of some little boys and girls who do not jump and play when they see the snow, because they have few clothes, little to eat and snow means cheerless living and nothing to hope for. For these boys and girls, we must think up something that will make Christmas time, at least, as happy as can be, and if you have any ideas, send them along, for I need help in that regard, because I need get very much run out on ideas, they really do. I must answer some more of those delightful letters, so will chatter no more today. Best wishes from your loving

UNCLE DICK.

Dear W. W. W.—It just did me good to get your letter and I was in such a fuss because I could not answer it right away, but never mind about that. I am glad that you are going to school, and that Olive is doing so well. I want her to write to me as soon as she can, for your family is not unknown to me. You had a relation that sang very beautifully, and it would please me very much to hear from you and Olive and to know how your aunt who sings is getting along. It is fine for you to have a horse and carriage all your own and you will now be out in a sleigh, no doubt, with bells a-jingle and cheeks a-tingle and—but dear me I will be writing a rhyme before I know where I am and this letter might never end.

Tell me about your school, Douglas. W. W. W. told me about his and he sent me his marks, which were very good.

Look for the Corner every day, and send your bit to keep it bright.

Uncle Dick.

Dear Douglas—Welcome again to the Corner. I feel like saying "Hooray" when the boys send me a letter, for as I said before, I have a hankering after boys, while being very fond of girls always, and they all know that.

NIGHT TRIP TO SHOW

New York Society Sees \$7,000,000 Theatre

Above—Part of New York Society Arriving for the Opening of the Theatre in Cleveland. In the Group: Left to Right are—Oliver Harriman, Samuel J. Wagstaff, Mrs. Richard T. Wilson, Carl C. Springer, Richard Lounsbury, Sidney D. Ripley, Mrs. James T. Terry, Whitney Warren, Jr., Mrs. Samuel J. Wagstaff, Mrs. Carroll Livingston Wainwright, Formerly Edith Gould, and Her Husband. At Right, the New \$7,000,000 Theatre Building.

Cleveland, O., Nov. 25—Taking an all-night trip to see a vaudeville show!

That is what some of New York's "four hundred," with its chief art, dramatic and literary critics and connoisseurs, did when they came to this city to take part in the opening of B. F. Keith's new \$7,000,000 theatre and building here.

In this theatre party were Mrs. Carroll Livingston Wainwright, who was formerly Miss Edith Gould; Mrs. Richard T. Wilson, sister-in-law of Mr. Cornelius Vanderbilt; and other prominent New York society members.

owners have any equity remaining in the craft, which consumed gasoline faster than rum at 100 per cent profit would purchase.

Fishing Schooners Predominate

By far the greater number of the vessels carrying liquors into and out of St. Pierre are fishing schooners. In every way they are better fitted for this business than any other type of vessel. The overseas fish trade has been made vastly profitable by the character of the return cargo these staunch and fast schooners transport.

Among the days when cargo salt was the best the white-winged fleets could stow below decks for their return voyages from France and Spain.

Now the vineyard, the wheat field, the potato field supply in liquid form and contained in bottle, cask or barrel, a return cargo to the New World which is instantly salable and at a round profit, the extent of which makes the owning and operating of a fishing fleet a business undreamed of, so far as its financial possibilities are concerned, a few years ago.

And while the ferry boats which transport the fish to France and the Scotch and port and sherry to St. Pierre are swift and weather-proof and wind-driven schooners, the same class of vessels has been found to be better adapted for prosecuting the trade on this side of the Atlantic.

With the name painted out, a schooner's a schooner and one looks as much like another as one pea resembles its mate in a pod.

The operation of the liquor ferries on this side of the Atlantic is more costly by far than the transatlantic expense despite the greater distance, for the Canadian and United States bound craft must perforce return to St. Pierre empty, after unloading "over the rail" of the three-mile line into the "feeders," as the agile fleets of motor craft are called which dart out from deserted shores in the dark of the night to the long-distance rum carriers from the north.

There are ports where the schooners creeping down from the north enter and discharge their thin over-laying cargoes of fish by day and later a far different and major cargo under the protection of the sable covers of the night. This custom, while far

This building is the world's greatest theater building. Unusual features make it unique; an art gallery lined with masterpieces and decorated with antiques; marble columns, large crystal chandeliers, a rug from Czechoslovakia; two women's smoking rooms in oriental design, cosmetic rooms and a marble-lined art gallery looking down upon the gallery of art.

The auditorium carries out the gorgeousness of the reception rooms. It seats 3000.

Back stage, the actors get as elaborate a welcome as do the patrons. Barber shop, beauty parlor, bath-rooms, golf training course, rest

rooms, tailor shop, laundry and kitchen are some of the conveniences. There is also a playroom for actors' children. And down in the basement is a special animal room with bath. The value of the theater alone is placed at about \$2,000,000 by Manager John F. Royal.

more of a risk, is still followed to a surprising extent.

Schooners, especially adapted for speed, rather than cargo capacity, are in demand in this business where the daring vessels actually nose their way up into the harbors, tie up at perfectly legitimate wharves and unload their innocent layers of fish which cover the real object of the voyage, for fish at 2 1/2 cents per pound on the wharf does not furnish an attractive business these days when the fishing crews demand high wages and first-class fare.

Fish and Rum Pay Well

As the fishing business has waned in part the business of carrying a split cargo—part fish and part rum—has waxed in popularity and remunerative qualities. The more whisky, the less fish a schooner transports, the better she pays.

The cargo of contraband occupy so little space and are so productive of profit that many a nimble fishing schooner which plies between some United States or Canadian port, say Lunenburg for instance, and the Grand Banks, finds it adds greatly to

the value of her trips if she drops in to St. Pierre for a few hundred cases of mixed liquors.

St. Pierre is more closely connected with the United States than most people imagine. Those shrewd French merchants who are making a ten-strike through the Eighteenth Amendment and the Volstead Act keep in close touch with affairs in this country and with Washington in particular.

Every decision by attorney-general, the Congress, the courts or whatever source of power, affecting national prohibition is immediately cabled to St. Pierre by some ambassador of rum, and its effect is quickly reckoned and appraised. St. Pierre is indulging in no guesswork in the conduct of her liquor traffic with this country.—Christian Science Monitor.

"My Hands Trembled and I Could Not Sleep"

Mr. Thomas Honey, Brantford, Ont., writes:—

"When I began taking Dr. Chase's Nerve Food, I was so nervous that when I picked up a cup of tea my hand would tremble like a leaf. I could not sleep well, could not remember things, and there were neuralgic pains through my body. After taking seven boxes of Dr. Chase's Nerve Food, however, I am in perfect health."
