SHEDIA

Shediac, N. B., Nov. 8.—Very fine weather was the order of the day, at the seaside town for Thanksgiving, and a number of visitors were in town for the holiday.

As a rule the Methodist Church was dressed appropriately for the Thanksgiving Sunday. This was not the case this time, for owing to the serious illness for the past few days of Mrs. Ives, Rev. Mr. Ives did not conduct service.

On Sunday evening Rev. Mr. Lewis, pastor of Knox Church, delivered a very forceful address and earnestly exhorted his audience to show thankfulness to God, by their service to Him. He pleaded with them to get in close touch with "the Master" who when he was on earth went about doing good. Mr. Lewis in his remarks sadly deplored the state of affairs today, where attending the Christian Church is concerned. He spoke of its many branches, giving people a chance to worship in their respective ways and yet, many were totally indifferent to being present in the House of God.

Miss Margaret Murray, who is a student at Newmarket, Ontario, spent the week-end with Dr. and Mrs. H. W. Murray, Belcourt.

Mr. and Mrs. F. J. G. Comeau of Halifax, have been guests the past few days of relatives in Shediac.

Mrs. M. M. Buck has returned from Moncton, where she spent a few days with her mother, who is leaving soon for the west.

Miss Emma Trueman left Saturday for Boston, where she will visit friends.

Miss Edith Goodwin spent Thanksgiving at Point de Bute, guest of relatives.

Mr. Stewart who has been visiting his daughter, Mrs. Woodworth, has returned to his home in Dalhousie.

Mr. John Valls, a former teacher at Mt. Allison Academy, but who is now in Campbellton spent the Thanksgiving holidays here.

Miss Margaret Weldon, of Summerside, P. E. I., spent the holidays here with her mother, Mrs. W. L. T. Weldon, Sackville.

Dr. Delano of Mt. Allison University, has been spending a few days in St. John.

Mr. and Mrs. C. W. Fawcett, Mr. and Mrs. F. B. Black, Mrs. J. W. S. Black, Miss Lou Ford and Mr. H. A. Ford, spent the week-end at Cape Tormentine at the summer home of the former.

Miss Margaret Tennant, of Moncton, spent Thanksgiving here, guest of Mrs. A. W. Davis.

Walter Read, of the Royal Bank staff, is spending his vacation in Boston.

St. Paul's church club was entertained at the Parish Hall on Tuesday evening by Miss Bessie Carter and Miss Ivy Richardson.

Mr. McNeil, who is studying law at Dalhousie University, Halifax, spent the holidays in Sackville, guest of friends.

GRAND MANAN

Grand Manan, Nov. 5.—The overcrowded condition of the Sunday School of the U. B. Church, Grand Manan, necessitates additional facilities. At the business meeting of the church on Nov. 2nd, a Building Committee, composed of Grant L. Dakin, Edison Ingalls, Herbert Daggett, Sidney N. Gupill, L. L. Newton, Governor Ingalls and Edwin Cheney was appointed.

Reports were circulated that the term schooner Novelty, which, for several days, lay in the offing before proceeding to North Head, was selling liquor. Upon her arrival, Inspector Richardson arrested the captain. On Monday the schooner was found guilty and was fined \$50.00. She hails from Newfoundland and her captain, Geo. W. Winsor, claimed to be ignorant of the prohibitory law. Hence the light fine.

A. B. Gibson, after a fine pastorate of three and a half years at White Head, goes to Minto under the auspices of the H. M. Board of the United Baptists. By his unusual gifts he has endeared himself in the hearts of his people and undoubtedly he will be a great asset to his new field.

Our unique Missionary, Miss Mabel Archibald from Chateauc, India, spent the last week of October on the island. She spoke before the U. B. quarterly at Seal Cove and the church. To expedite her work she was given \$100.00 toward the upkeep of her auto which she takes with her to India.

CITY AND VICINITY

City and Vicinity
Twenty-one student nurses are taking examinations at the General Public Hospital under the supervision of Miss Maud E. Retallick, R. N., secretary of the board of examiners.

The C. P. R. elevators at West St. John were operated on Tuesday for the first time this Fall. Grain is being received steadily in small lots.

Mayor McLellan will hold a public meeting for the election of West St. John in the Empress Theatre tonight at 8.15 o'clock.

Only one tender has been received for the cordwood offered for sale by the city. The opening of tenders is scheduled for this morning.

Two Upper Canadian publishing houses have written the secretary of the Board of Trade asking for detailed information about St. John. An inquiry has been received for the names of hay and farm produce dealers. The last issue of "The World's Markets" published in New York, a copy of which has been received by Secretary Armstrong, is devoted chiefly to articles on Canadian trade.

STANDARD TIME FOR WHOLE WORLD PROPOSED

Hartford, Conn., Nov. 8.—Adoption of a single standard of time for the entire world is suggested by F. H. Schnell, traffic manager of the American Radio Relay League.

The purpose of this would be to simplify the recording of radio messages between distant parts of the earth and avoid confusion and error made possible by the present method.

Greenwich Mean Time is the standard which would be adopted universally. It divides the 360 degrees of the rotation of the earth into 24 periods, or hours.

"Starting at Greenwich, Eng.," explains Schnell, "which is reckoned as 0 degrees and moving eastward, for every 15 degrees longitude the time is reckoned as one hour west of Greenwich. Thirty degrees is two hours west, 45 degrees three hours west, and so on."

Easy Figuring
With this the only standard, it would be easy to calculate the time for universal purposes from the local time. The various standard and daylight saving times in the United States would be unnecessary and, in fact, cumbersome for universal calculation.

"More important is the adoption of a standard time of international recognition as we approach international amateur radio communication with European amateurs," says Schnell. "Greenwich Mean Time is known the world over and is the one standard of time recognized by every civilized country."

"In keeping a record of messages, G. M. T. would be invaluable for at least one reason. Suppose an amateur heard a signal from a great distance wished to calculate the location of the record. Just see what a simple matter it would be to compare the records of two or three dozen stations, all keeping the same standard of time."

"It would make no difference if the recording station was located all over the face of the earth. The time would be the same. No effort would be wasted in converting the time of a given meridian to that of another. The only factor that would have to be kept straight would be the date, which we all do now."

SIX-YEAR-OLD HAD BRONCHITIS EVERY WINTER

Bronchitis generally begins with chills, followed by fever and a harsh, dry, hacking cough. There is a raising of phlegm, which at first is of a light color, but as the trouble progresses it becomes a yellowish or greenish color and is sometimes streaked with blood.

All those who are troubled with bronchitis will find Dr. Wood's Pine Syrup a remedy that will stimulate the bronchial organs, subdue the inflammation, soothe the irritated parts, and loosen the phlegm.

Mrs. Oliver C. LePage, South Rustico, P. E. I., writes:—"My little six-year-old girl had very bad attacks of bronchitis every winter. In the evening and during the night, she would have fever and choke up, and had a wheezing in her chest. We tried several cough medicines, but they never seemed to do her any good. A neighbor advised us to try Dr. Wood's Pine Syrup, which we did, and after she had taken two bottles she got perfectly well."

Price 35c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it permeate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hacking, snuffing, blowing, no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

RADIO MAKES WORLD WISER

The world is getting wiser, due to radio.

Never before in the history of the world has knowledge been disseminated so widely and bits of information picked up so fast.

Universities have adopted the radio-telephone as a means of spreading educational facilities. Lectures are being sent out daily from all parts of the country to all who care to listen in. Music, both jazz and classic, is being broadcast. Bedtime talks for children, health hints, book reviews, plays and, in fact, any subjects that lend themselves easily to broadcasting are being delivered to the people with radio sets without cost.

It is the greatest era of free learning the world has ever experienced.

Geography
Even beyond the education spread directly through the radio microphone there are means of helping the radio fan and his friends increase their worldly knowledge. There is, for instance, geography.

Geography cannot be broadcast by radio-telephone because maps are needed. But radio fans have learned more of the geography of their country through the radio-telephone than they have ever accumulated hereof. They know locations, they know distances and they can tell directions of points from their own stations. By constant reference to the map of the United States they could draw an outline of the country from memory.

This knowledge is gained through curiosity and the instinct of contest among the fans. Thus a radio fan in Minneapolis finds himself tuned in on broadcasting station WJZ. Looking up his list he finds WJZ is in Newark, N. J. Out of curiosity he takes his map and measures the distance from Minneapolis to Newark and makes a note of it.

The record becomes a factor in his endeavor to show the highest distance covered in radio reception. This contest is going on at present in all parts of the United States. In fact, radio amateurs are trying to gain the honor of receiving messages from Europe and other continents.

Newer Form of Iron Quickly Increases "Pep" Strength And Energy

"You cannot be well and strong, and full of vigor, force, and power unless your blood is rich in iron," says Dr. James Francis Sullivan, formerly physician Bellevue Hospital (Out-Door Department), New York, and the Westchester County Hospital. "It is your red blood that enables you to resist and overcome disease and that nourishes every organ in your body. Without iron your blood becomes thin, pale, and watery. Poor blood cannot nourish your vital organs and as a result you may have pains in your heart or kidneys, indigestion, headache, and feel all run-down and tired-out."

When your blood lacks iron do not waste your time taking stimulating medicines or narcotic drugs, but direct your blood to the new iron which is uniform of iron sold by all druggists under the name of Nuxated Iron which is like the iron in spinach, lentils, and apples and is in a form easily assimilated into your blood.

Get a bottle of Nuxated Iron today. Take it for two weeks and if you have red blood that is healthy, obtainable most surprising health, strength and energy, the manufacturers will promptly refund your money. The following local druggists will sell you Nuxated Iron with this "satisfaction or money back" guarantee: Travis Drug Co., J. M. Rouillon, T. J. Durick, and Ross Drug Store.
