

THE MUSQUASH WATER SUPPLY DISCUSSED BY C. C. KIRBY, C. E.

Replenishment Necessary Four Times — Rainfall Figures Stated at Banquet Given by St. John Branch of Engineering Institute of Canada to Fraser S. Keith, General Secretary—Latter Tells of Society's Development.

About forty-five members and affiliated members of the local branch of the Engineering Institute of Canada, attended a banquet at Bond's last evening, given in honor of Fraser S. Keith, the general secretary of the Institution. A. G. Tapley acted as chairman and Frank Vaughan as toastmaster.

After full justice had been done to the tempting menu and the toast to Canada and the King carried out with the usual musical numbers, C. C. Kirby, district engineer of the C. P. R. responded to the toast to the Engineering Institute of Canada.

Mr. Kirby in the course of his remarks, expressed his pleasure in being chosen to reply to this toast. He said that the Institution was one of the most important in Canada, embracing as it does, engineers of every profession. The policy of the Institute endorsed the active interest of the members in aiding to solve some of the engineering problems in the world today. He referred to hydro electric problem, which now confronts the citizens of St. John. Efforts have been made to arrive at a solution of this problem, but the solution seems to be based more on the war of personalities than on the merits of the case. The Ross report on the rainfall at Musquash had been given at 34.5 feet, whereas a previous report had been 33.2 feet. The actual run off in 1921 was 33.2 feet, which is less than the required amount of water to generate the necessary power. The storage has been built to overcome the discrepancies of the dry season. When Musquash was visited little maps were supplied showing that two and a half billion cubic feet of water was available for any one time. Since 500 cubic feet of water are necessary to generate one kilowatt, and a half billion cubic feet would be necessary to generate 21,000,000 k.w.h.s. In other words the storage at Musquash would have to be replenished four times during the season. The Mitchell report had said that the rainfall at Musquash was 33.6 feet, against a rainfall at St. John of 27.5 feet. It can be proved that Musquash has all the power necessary, then the Power Co. should make an effort to co-operate with the city in effecting some settlement. If the Power Company is to become obsolete, then someone will have to stand the loss.

The General Secretary, Fraser S. Keith was then called on and said that the Engineering Institute went on record as taking no stand in the disputes now going on in the city. Mr. Keith said that a great development had taken place in the city during the past few years, owing to the fact that the members had become better acquainted. The Institution is progressing throughout Canada, largely due to a better feeling of

good fellowship. The committee on policy had been appointed to see if any change could be introduced to strengthen the profession. Definite recommendations had been made to enlarge the object of the Institute, which undertook to promote both the social and intellectual side of the profession. The various branches have been encouraged and have grown during the past few years from nine to twenty-three. The policy of the council was to increase the membership of the branches and to divide Canada into districts. As smaller branches are not represented on the council, it has been recommended to have a member elected from each branch, and each district to have a vice-president.

It is also the policy of the council to promote better relations with the sister societies in England and the United States. It was also suggested by the committee that the matter of a proper curriculum of training be taken up with the universities. The policy committee would also suggest to the members, that a larger interest be taken to develop the natural resources of Canada.

Question of Remuneration
The question of remuneration was then taken up. People sometimes have a small opinion of the city engineer. If they had an insight into what the engineer was actually doing, he would greatly rise in their estimation. Sometimes employers do not lay much stress on the value of the engineer's education. If the profession was better paid and more valued, it would become a greater force in the world's work. The profession has been divided into eight classes by the council. The assistant chief engineer has been taken and the remainder graded down through eight grades. Salaries for each grade have been stipulated with no maximum salaries stated, but minimum for the lower grades. This report will be taken up and thoroughly gone into at the annual meeting. In closing his address Mr. Keith expressed his appreciation of the kindness of the local branch in tendering him the banquet.

Harry E. Bennett, the local branch secretary, reminded the gathering that the next meeting would take place on Thursday the 16th, when an address, illustrated by slides would be given in the Orange Hall by Mr. Stead on the work at Richibucto Cape. During the evening Mr. Simpson and Mr. Ritchie sang several numbers.

Mr. Keith was the guest of honor at an informal luncheon given at noon at Courtenay Bay by F. M. Ross, manager of the St. John Dry Dock and Shipbuilding Co., Ltd. Those present included the members of the staff of the district engineer and the engineer in charge of St. John harbor, in the federal public works department.

EAST ST. JOHN IS NOT TO LOSE LITTLE RIVER BRICK INDUSTRY

PLANT OF STEPHENS BRICK CO., LTD.
BURNED ON MONDAY MORNING

Little River, East St. John, is not plant, which was destroyed by fire to lose its old brick industry. Thomas last Monday morning, entailing a loss of \$70,000. The insurance company, Ltd., announced yesterday amounts to about \$50,000. The brick that the company would rebuild the yards employed about fifty men.

GOOD SPEAKERS AT THE NATURAL HISTORY MUSEUM

That the Natural History Society needs only to go about promoting its interests and needs in a self-assertive manner, was the opinion of Hon. Dr. J. B. M. Baxter, R. T. Hayes, M. L. A., Hon. H. Powell, K. C., and Col. Murray McLaren, M. D., M. P., when they addressed an enthusiastic meeting at the museum last evening. This is the sixtieth year of the existence of the museum and the society so Dr. William McIntosh said in the few remarks that he made before the audience, which was received on entering the rooms by Mrs. Harold Lawson, president of the ladies' association, and W. F. Hatheway, who acted for Dr. Hutchinson in his absence.

Miss Christine Matthews played most artistically the Chopin-Liszt song without words, Madchen Wunsch, (Maiden's Wish), one of the old British songs from the Vicar of Wakefield, was sung by Miss Louise Knight, and was heartily enjoyed, when she gave by request, the Cuckoo Song.

Hon. Dr. Baxter then addressed the meeting and dwelt on the wonderful importance of the lectures that were a part of the winter programme of the association, and were considered foolish by those who did not understand the great benefits derived from the Natural History work. In humorous phrase, with ever-appearing seriousness Dr. Baxter warned the members of the danger of giving way to the desire of excitement and thrills on the part of the present day mind, and urged them to hold firm to their work of carrying on the museum, and particularly the lecture course. "Get a little bit in earnest and be self-assertive," was the idea that was left as a matter to consider and act upon. He also suggested that the provincial and civic governments be approached by a strong committee, that would deal with concrete facts (not with old mythology) that would impress the powers that be of the need of funds to continue their support by more generous allotments.

Mr. Hayes followed in an equally happy vein and assured the society that the provincial government would be most sympathetic, as the reminder had expressed great interest in the museum and its attending work. He referred to the time when as mayor of the city, he had always met the delegations of the society with an open mind, and had always striven to agree to their requests. He felt that the same consideration would now be given.

Col. McLaren referred to the modesty of those who are really great, and that difficulty had made sure as Dr. Hay, Dr. McIntosh and Gordon Leavitt what they were, because of the obstacles they had had to overcome. At the same time he felt that the society must have support, and agreed with the former speakers that concerted movement would accomplish what they desired. He showed how naturally children turn to natural history and a collection that he himself made in his younger days that was burned in 1877.

Mr. Powell said that of all the collections of Indian relics that he had seen, the one in this museum was the most comprehensive in selection, most beautiful in arrangement, and most complete with the aid of the scientific knowledge of the curator Dr. McIntosh. He urged encouraging works of art of Canadians, who are being recognized in all parts of the world except at home.

Refreshments were served with Mrs. Shaw and Mrs. F. B. Ellis pouring and assisted by Mesdames Seccord, Doody and Misses Hilda Shaw and Barbara Dobson. Great interest was shown in the museum which was thrown open, and whose interesting specimens were explained by members who were on hand at the various strategic points.

The educational feature, which is the strongest plea for the society, and the museum is shown by a few of the facts laid before the meeting by Dr. McIntosh in his capacity as curator: Visitors to the museum 12,000; classes brought by teachers, 27; Friday afternoon meetings with average attendance of 44, during the winter months; free illustrated lectures provided for public in museum 15; talks or lessons for teachers, students, farmers, Boy Scouts, and all such societies, 202. Natural study notes were given to teachers to the number of 4,317, and there were 2,720 specimens identified for pupils and others.

That's A Wise Crack
So, Portland Sage says throwing bouquets at yourself never fools your audience.

Variety is the spice of life.

DECLARES CITY MUST PAY THIRD

That the city must pay one third of the extra cost of moving the western abutment of the C.P.R. bridge over Chesley street, was made very plain to the members of the council yesterday by a communication from the Board of Railway Commissioners. If it wished to have the street widened at that point.

The letter, after pointing out that the city declined to pay any portion of the cost of the work, went on to say that the Board of Railway Commissioners would have no hesitation in making an order giving the C.P.R. permission to rebuild the abutment in its original position unless within ten days there was received from the council a notice that it was willing to bear one third of the additional cost, estimated at \$2,100, which would make the city's share \$700.

The mayor remarked, "they are evidently working for the C.P.R." Commissioner Frink said there was room for misunderstanding in the communication and it meant if the city wanted the street widened it must pay \$700. He moved the communication be referred to the commissioner of public works for a report, and this motion carried.

CATHEDRAL HIGH TEA A SUCCESS

W. J. McMillan, Miss S. Grey Among the Prize Winners.

The second night of the Cathedral High Tea proved to be quite as successful as the first. The attendance was very large. During the evening the City Council had given a greatly appreciated program of music. The door prize, one half ton of coal, was won by Ticket No. 2252 and was unclaimed. Ticket No. 122, held by W. J. McMillan, won the pair of chickens at the ice cream booth. The pair of tickets on the rose booth was won by the holder of ticket no. 333. Miss S. Grey 653 Main St., won the table runner on the fancy work booth. The holder of ticket no. 15, won the prize in the voting contest.

Of the Cathedral supper table, Mrs. Charles O'Keefe was convener and her assistants were Mrs. Charles McMillan, Mrs. William Lean and Mrs. John Carr, and the waitresses Mrs. Katherine Murphy, Miss Annie Fitzgerald, Miss Josephine Burns, Miss Dorothy Lydon, Miss Margaret Gallant, Miss Sylvia Gallant and Mrs. Robert Hennessey.

The Red Cross supper table committee convener was Mrs. John Stack and her assistants were Mrs. A. Campbell, Mrs. A. Peterson and Miss C. McDonald. The waitresses were the Misses M. Corr, R. Stack, P. Marcoux, Lillian Peterson, C. Harris and G. Burns.

The St. Vincent's de Paul supper table convener was Mrs. E. Henry and her assistants were Mrs. D. Kilborn, Mrs. D. Connolly, Mrs. H. Murphy, Mrs. T. Thompson, Mrs. J. Cullinan and Mrs. J. Ramsey.

The supper table in charge of the Faith had as convener Mrs. T. O. Murphy. Her assistants were Mrs. J. L. McGrath, Mrs. William McMillan and Mrs. John Daley. The waitresses were Miss Marie Dolan, Miss Mary McGrath, Miss Gusie McGrath, Miss Mary McLaughlin, Miss Mary Killoran, Miss G. McGuire and Miss Helen Dolan.

The table in charge of the Altar Society was decorated with yellow chrysanthemums and yellow candles. Mrs. John O'Regan was convener and her assistants were Mrs. M. J. Nugent, Mrs. T. P. Coughlan, Mrs. A. P. O'Neill and Mrs. John McDonald. The waitresses were the Misses Helen and Frances Ryan, Gertrude O'Neill, Edith Driscoll, Josephine Jenkins, Rita Dwyer and Florence Nugent.

The table in charge of the Society of the Immaculate Conception was decorated with sweet peas and chrysanthemums in pink and mauve colors. Mrs. M. E. Finnigan was the convener and her assistants were Mrs. H. V. McGilvray and Mrs. J. T. Sheehan and the waitresses were Miss Loretta Clark, Mrs. Thomas L. McCormick and Miss Hazel and Miss Helen Leighton.

Those serving in the coffee room were Mrs. J. E. Emery, Mrs. F. Blake, Miss A. Walsh, Miss J. Walsh, Miss F. Cronin, Mrs. D. McGowan, Mrs. D. McEachern and Mrs. G. Lucey.

LOCAL NEWS

CAR HIT BY DRAY

A heavy dray hit a street car at the Mill street crossing yesterday afternoon, but no damage was done.

SALVATION ARMY CONFERENCE.
A Salvation Army Conference for young people held in this city has been concluded. Representatives of other provincial centres attended.

BUCTOUCHE NATIVE DEAD.
Capt. Matthew Smith, a retired master mariner, who was born in Buctouche, Kent County 81 years ago, died at Hough's Neck, Quincy, Mass., on Sunday night. For several years he owned schooners trading in the Northumberland Straits. He leaves three sons and six daughters.

AIDS NAVY LEAGUE HERE.
A vote of \$25 for the Navy League here for Christmas treats for sailors at the port, has been voted by Fort Cumberland Chapter, I. O. D. E. of Moncton. The chapter also gave \$400 to the Coverdale home for women.

WORKING ON CASE.
Sergeant Detective Power and his staff are still working on the attempted murder case and looking for the two holdup men who entered Tom Lee's laundry on Carleton Street a few evenings past and shot the Chinese man. It was said that he was excited after being shot that he was unable to give a very good description of his assailants, and there has been very little for the officers to work on.

REGRETS ABSENCE.
W. Frank Hatheway, who occupied the chair at the conversation given last evening by the Natural History Society, informed the Journal that the Mayor and Commissioners had been invited to attend but that not one of them attended the conversation or sent his regrets. Mayor McLellan said that the invitation had not reached him and he regretted very much the apparent incivility of his attitude. It might have been mislaid in the pressure of campaign business and he hoped the Society would accept his earnest regrets for his absence. He was doing an excellent work which should be encouraged by the city council.

Obituary

Mrs. Alonzo Brewster

Hopewell Hill, Nov. 7.—The death occurred on Nov. 7, of Mrs. Brewster, wife of Alonzo Brewster, of Harvey, Mass. Mrs. Brewster was seventy-three years of age, had been in rather poor health for several years, but had been around as usual, until very lately. Many friends will regret to hear of her death. She was formerly a Miss Forsythe, of Harvey parish. Besides her husband she leaves four sons—Loring, in the west, and Herman, Percy and Miles living in the United States—and one daughter, Mrs. Cronkhitte, of Wellesley Heights (Mass.).

Child of Alfred Brittny.

Friends of Mr. and Mrs. Alfred Brittny, of Latimer Lake will sympathize with them in the loss of their infant daughter, May Margaret, who died yesterday.

Mrs. Marcus Rockwell.

The death of Mrs. Marcus Rockwell occurred at Dorchester, N. B., at an early hour Sunday morning after a lingering illness of over a year's duration. The deceased lady who was widely known and respected was 58 years of age and had brought up a large family. Besides her husband she is survived by two sons and seven daughters. The sons are Elmer, of Trenton, Mass., and Loren, at home. The daughters are: Mrs. Frank E. Doucet, Moncton; Mrs. Harold Urquhart, of Miss Mildred Rockwell, of Waltham, Mass.; Mrs. Harry MacDonald, Truro; Mrs. Henry Cheshire, Sydney; and the Misses Fannie and Jean, at home.

Alexander Wilson.

Catham, N. B., Nov. 4.—The death of Alexander Wilson occurred at his home King street, Friday afternoon, Nov. 3, aged 73 years. Deceased had been a pilot on the river all his life, and for the last two years had been in failing health. He leaves a loving wife to mourn her loss, also six daughters: Mrs. Robertson, of Chicago; Mrs. Nettles, of Montreal; Mrs. Kay, of San Francisco; Mrs. Kilburn, of Minto, N.B.; Miss May, of New York, and Miss Elva, at home; one sister, Mrs. Kerwin, of Boston, also survive.

Mrs. Margaret Morris.

Albert Nov. 4.—The death of Mrs. Margaret Morris, widow of the late Henry Morris, occurred at her home in Harvey on Friday evening, after a lingering illness. She was 73 years of age. The funeral was held at the Methodist church, Rev. Mr. Sellar conducted the services, assisted by Rev. Mr. Alexander, the Baptist pastor. Rev. Mr. Sellar based his remarks on "This mortal must put on immortality." A united choir sang, "Forever," With the Lord, "Rock of Ages," Abide With Me," the organist, Mrs. Sellar, sang

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

A. O. H. HAS A BIG NIGHT IN MILFORD

WILL THE OLD "VIC" BE CLOSED UP?

Commissioner of Safety Says Building Has Been Condemned—Owner Threatens to Sue City.

A very large number of members and friends were present at a social and open evening held last night in St. Rose's Hall, Milford, under the auspices of the county council of the A. O. H. in conjunction with Division No. 5 A. O. H. and the Ladies' auxiliary No. 2.

The programme was composed of several speeches and musical numbers. Among the speakers were John Stanton, county president of the A. O. H.; John C. Ferguson, president of Division No. 1; Louis Keenan, president of Division No. 5; Peter Sharkey, Thomas Killen, E. J. Moran, Wm. J. McNulty, Geo. Carvell, J. P. Doody, Charles O'Neill and Miss Ryan, president of the Ladies' auxiliary. Vocal solos were given by the Misses Rose McFadden, Josie Viger and E. George and by Mr. Harold Gillis. The accompanists were Mrs. Stella O'Toole and Miss Dorothy Berry. William McManus gave an exhibition of club swinging. Light refreshments were served at the close of the evening.

MORGAN BULKELY OF HARTFORD DEAD

Hartford, Conn., Nov. 7.—Hon. Morgan Bulkely, formerly mayor of Hartford, governor of Connecticut, United States senator and first president of the National Baseball league, died here last night. He was president of the Travelers' Insurance Co. When he was elected governor in the early nineties, another candidate contested the election. The state capital was in a state of siege for several days, the mob was ramped by Bulkely's friends and battered in. A militia company eventually restored order. Mr. Bulkely won the contest.

Died

RYAN—Suddenly at Moncton, Nov. 4, 1922, Nan M., beloved daughter of Mr. and Mrs. William Ryan, 24 St. David's street, formerly of Brookville, leaving besides her parents, three brothers and three sisters to mourn. Funeral from her parents' residence at 8.30 o'clock Wednesday morning to the Cathedral for High Mass of Requiem. (Boston papers please copy.)

Funerals

The funeral of Mrs. Thomas Riley took place yesterday morning from St. John the Baptist church, with requiem high mass, celebrated at 7.30 o'clock by Rev. J. J. McDermott. Burial took place in the new Catholic cemetery.

The funeral of William Malcolm took place yesterday at 2.30 o'clock from Chamberlain's undertaking rooms. Rev. Walter F. Dunham conducted services. Burial was made in the cemetery of the Good Shepherd, Fairville.

The body of Edward C. Sutton arrived yesterday from Vancouver. The funeral took place from Fairville station. Service was conducted by Rev. W. P. Dunham. Interment in Greenwood cemetery.

The funeral of William Lawton took place on Monday from Chamberlain's undertaking parlors, following service by Rev. W. P. Dunham. Interment in the Good Shepherd burying ground.
