A PROGRESSIVE DINNER

A merry party of twenty-two young people have made a precedent in carrying out successfully a most original idea, in the form of a progressive dinner, which began at the home of Dr. and Mrs. J. D. Maher, Douglas Avenue with the fruit punch, served in the grape fruit, by their gracious hostess. The company then proceeded to the home of Dr. and Mrs. F. L. Kenney, West End, where the soup course was partaken of. Into the autos they climbed to be whirled to 233 Germain street, where Mr. and Mrs. Skelton were glad to see them come for the fish course, and scarce had time to see them go, so hasty was their departure for Hazen Castle for the meat course, with all the good things that accompany it. This took some time, but they were duly on their way to Rothesay, where salad was served at the home of Mr. and Mrs. J. D. Cudlip, with dessert awaiting at Premier and Mrs. W. E. Foster's. Then off again for coffee, Mr. and Mrs. T. E. G. Armstrong ready to greet the quickly vanishing party, that in haste arrived and as quickly disappeared, lest all the well-laid plans be upset by their own delay. It was the intention of these happy young people to end their frolic with a dance at the Venetian Gardens, but with the very wet roads, it was the opinion of one of the mothers that they would not be able to accomplish this, despite their expeditious comings and goings. There is no doubt that they were bent on meeting any difficulties with the best of cheer, so it is quite probable that whatever the final ending, it was a perfect whirlwind of fun, that could only be enjoyed by those who are full of youth and restless energy. Those who were guests were: Miss Althea Hazen (who originated the happy idea), Miss Hortense Maher, Miss Katherine Skelton, Miss Marion Ogilvie, of Kingston, (guest at Hazen Castle), Miss Isabelle Jack, Miss Phyllis Kenney, Miss Helen Cudlip, Miss Mary Armstrong Miss Lorna Dean, of Halifax, (her guest), Miss Elspeth McLaren, Miss Joan Foster, Messrs. Arthur, Gerald and Ives Anglin, Murray Vaughan, Cyrus Inches, Jim Lovitt, Jack Easson, Fred MacNiel, Fred Alward, Don Skinner and Cecil Fitzgerald.

He is accompanied by his friend, Paul Dufresne, who is with him in business. Miss Elsie is in the Bloomingdale Hospital, White Plains, New York, and is highly spoken of in her work there. Mr. and Mrs. Lee and guests were entertained by Commissioner and Mrs. J. H. Frink, at their camp at Gondola Point over the week-end, having a very enjoyable time, despite the awful flood of rain that was so distracting to many well-laid plans. The young people will be here for some time and are hoping for better conditions in the matter of weather to see their friends and take advantage of the out-of-doors, which is the perogative of those who would go a holidaying.

Clever Daughter of A Clever Mother

Mr. and Mrs. H. A. Wilton, of Kingston, Ontario, are very proud of their daughter, Miss Margaret Wilton, who has graduated from Queen's University, Kingston, and has been engaged in research work at St. Andrews-by-the sea for the past two months, at the biological station there. This story has a local interest in New Brunswick because Mrs. Wilton was Miss Janie Harvey, of Fredericton, a sister-in-law of Mrs. John Harvey, the well-known Institute worker. Miss Wilton has followed in the footsteps of her mother, who was a prominent school teacher in her home town. She has been the guest of Mrs. Harvey for the past week-end, before returning to her home in Kingston.

Of General Interest

In referring to the recent announcement of the marriage next month of Lady Sybil Grey to Mr. Lambert William Middleton, only son of Mr. and Mrs. Henry N. Middleton, of Lowood, Melrose, London papers are publishing some reminiscences of her life in Canada. They tell what an excellent skater Lady Sybil became in Ottawa, where the vice-regal residence has such a splendid private skating rink. Another story is told of Lady Sybil's trip in 1909, when she accompanied her father, then governor-general of Canada, on a trip to the Canadian Arctic gold fields. Near Dawson City, the capital of the Klondike, she pegged out a claim for herself and christened it "Sybil." Her first panning out produced twenty dollars worth of gold. "I wriggled the pan all by myself," she proudly told an assembly of miners. During the war Lady Sybil served with an Anglo-Russian ambulance column in Russia, and in 1916 was wounded during bomb practice. A splinter pierced her cheek and jaw but a successful operation was performed. Later she served in France and was there after the armistice until the final evacuation of British troops.

Among the collections in Buckingham Palace is the favorite doll of Queen Alexandra, given to her by her father. It is a very staid and matronly doll, dressed in quite middle-aged style, and the legend is that the queen cut out every garment herself, and sewed every stitch in them.

◈ ◈ ◈

Sir Thomas Willes Chitty and Lady Chitty, who have been the guests of Professor J. E. Read and Mrs. Read, Oakland Road, left yesterday for Toronto.

FROCK TRIMMINGS WORK MAGIC

Just one solitary bit of trimming is all that's needed to change a dress into a creation and here are some of the ornaments that turn the trick.

Cabochons of braid, beads or heavy embroidery are used to hold the graceful drapes of the newest frocks securely on one hip.

These are much more than merely fasteners—they are large and colorful and often have pendant fringes of braid or beads. Frequently they are the only touches of color on an otherwise somber dress.

The low waistline calls for girdles, too, and these are often most elaborate. Braid sewn into placques or heavy embroideries of beads and braid are most favored for more elaborate costumes. Simpler dresses retain the low waistline with a sash of the material.

New Brunswick Has The Real Scenery

New York Lady Delighted With Automobile Trip Up the St. John River.

That the scenery between Fredericton and Woodstock is very very beautiful, is not a strange story to those who have travelled that way many times, but it is sweet music to the ears of a true New Brunswicker, when it comes from an American lady, who has been in all parts of the world. The occasion for this remark was when J. Charlton Berrie, accompanied by Mrs. Berrie, her father and mother, Mr. and Mrs. J. L. Thorne and the latter's sister, Mrs. Josephine Young, took an auto trip to Edmundston, the gentlemen attending the sessions of the New Brunswick Municipalities. The party went up the first of last week on the Canadian side, stopping over at the cosy Hotel Carlisle, at Woodstock, through Hartland and St. Leonard's, to the convention. Mrs. Young the lady referred to above, was delighted at every new turn in the road and cannot say too much about all she saw and the courtesy received, rain or no rain. They returned to Woodstock on the American side of the river, via Houlton, and were six hours coming from Fredericton on Sunday, one place on the road almost wrecking them, because of the flood, but they arrived at nine thirty in the evening.

Messrs. Thorne and Berrie were present at the banquet at Edmundston, and the ladies, who were the only ones in the party, were allowed a look in at the tables, which were beautifully decorated, and had a delectable feast for the busy members of the convention. Though the delegates stayed at the Madawaska Inn, the banquet was served at the Windsor, where our particular party were registered. The menu bears the rather delightful boast that "Eve had no menu, Neither did Adam," Twasn the style, Nobody had 'em." Didn't have banquets, Nobody did." Here's where we have it On Adam, old Kid.' Poor Adam might have been in worse trouble if the menu following, had been before him, deciding what to take first, and how much. New Brunswick cannot be long in the background, or woods, if she takes such a leading place in affairs, with courtesy to warm the hearts of the tourists, beauty upon which to feast their eyes and good roads to speed them on their journey.

Budapest, Aug. 28.—The hotel employees have proclaimed a general strike following refusal of their demands for inclusion of a 10 per cent. tips in all bills presented to guests. The guests, including a number of Americans, are being obliged to cook their own meals.

One hundred Deputies, unable to find living quarters in the capital, called in a body today upon the President of the National Assembly to lay the problem before him. The latter decided to have a large building erected near the Parliament where the homeless Deputies will be lodged.

Weddings

Harrison—Tracey

The wedding of Miss Lola M. Tracey of Fredericton Junction, and Marvin T. Harrison, of Devon, was solemnized at three o'clock this afternoon, at the Brunswick Street Baptist church. Rev. G. C. Warren, officiated and the bride and groom were unattended. The bride wore a brown velour suit with hat to match, and corsage bouquet of American beauty roses. The ceremony was performed in the presence of members of immediate families of the bride and groom. They will spend their honeymoon at Toronto, Montreal, Niagara Falls, and other points and on their return will make their home in Fredericton.

McKinney—Newbury

In the Germain St. Baptist Church Saturday afternoon at 3 o'clock, Miss Violette Evangeline Newbury, daughter of Mr. and Mrs. Henry Newbury, of Kitchener, Ont., and George Henry McKinney, son of James McKinney, of the Customs Service, were united in marriage by Rev. S. S. Poole. The couple were unattended and the ceremony was performed in the presence of immediate relatives. They will reside on Elliott Row. The groom is employed with the Dominion Rubber Co.

Fashion Parade To Be Feature

Proper Way to Wear Very Latest Styles to be Shown at Exhibition.

Everybody in St. John,—in New Brunswick, in fact—will have the opportunity of knowing what to wear, and best of all how to wear it, when the annual exhibition opens at the association buildings on the second of September. J. F. Nichol, formerly of the Robert Simpson Company, Toronto, now of F. A. Dykeman's fine store on Charlotte street, is to take in hand the showing of the proper way to wear the very latest of the styles that have been accepted by the women who know just what is the correct thing from an artistic standpoint, both for practical and dress-up occasions. The firm's participating in this enterprising up-to-date presentation are: F. A. Dykeman, F. W. Daniel, Scovil Bros., Marr Millinery, H. Mont Jones and D. Magee's Sons, Ltd., and one of the leading shoe houses, which was not named, when this matter was discussed yesterday afternoon.

The stage setting will be a very important item in this grand display, being thirty-two feet across, and giving an effect, which the exhibitors call "cyclochroma," which is really a circle of color, and no doubt it will be, when the fifteen fashion plates promenade around, and then along the extended stage that will project itself into the audience, through the centre of the Agricultural Hall, where all this beauty is to be on show. The various details that go to make up the art of dressing well and giving that touch which is called "chic," will be easily seen by this Hippodrome method of displaying the charms of the very latest in clothes, and the harmony of color and the effect in various lights will be enhanced by the setting, which will be all in black, with spot lights and special lighting features.

One hundred new branches have been built by the exhibition committee to accommodate the crowds that they expect to be present to see this great spectacle, and they estimate the love of humans for pretty clothes when they make this provision. There will be a bewildering array of dainty blouses, rich furs, dresses plain and dresses fancy, with hats that blend and hats that contrast, stocking and shoes the same, clothes for tall and slim; gowns for plump and not so tall; figures to match each style, and styles to match each figure.

Mr. Nichol has been to New York and has obtained not the styles that have been produced this season, but the styles that have been chosen out of many models. This is the chance of a lifetime to be in the fashion, whether one lives in the city, or in the smallest country district. Art in dressing well is one of the highest, because it means that the personality has every support to influence one's associates in social and very especially in business life. There will be every reason to attend the Exhibition this year, and the display will be one of the biggest reasons.

Boys' Band To Be Started

By-Rotary Club — Presentation to Popular Waitress.

The Rotary Club went on record yesterday at its regular weekly meeting, in favor of the proposed boys' band for which $1,000 to furnish instruments is pledged. The club has undertaken to raise $700 for the first year's tuition and expenses.

Rotarian Mont Jones, in behalf of the Rotarians made a speech of congratulation and presented a handsome gift to one of the waitresses, Miss Ramsay, who is about to enter the married state. Two other Rotarians set upon her head a hat and bridal veil of twenty-five cent scripts which flowed in a wide band from her head to the floor. A fourth Rotarian took her arm and amid congratulations and cheers she was escorted to the head of the Stairs.

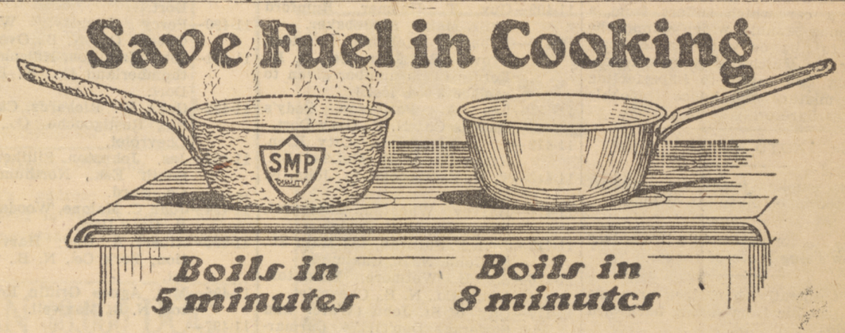

The boys' picnic which was to have been held today was postponed until Wednesday on account of the heavy rain. A handsome cigarette case with the Rotary emblem embossed is to be taken to Halifax where Rotarian Ross Marshall of that city will present it to Rotarian Mose Ewing, the club pianist, who has taken a position in Halifax.

Save Fuel in Cooking

YOU don't buy a new cooking pot or pan every day, but you do buy fuel of some sort every day. Every day you are using up a certain amount of coal or wood or gas or electricity for cooking purposes. And fuel costs money these days! To save fuel use

SMP Diamond or Pearl WARE

"A Face of Porcelain and A Heart of Steel"

Diamond and Pearl Ware cooking utensils heat more quickly than utensils made all of metal, such as copper, brass or aluminum.

Try This Test

You can easily prove it. Take a small Diamond or Pearl Ware saucepan. Put in it a pint of cold water, set it on the hot stove—whether it be a coal, wood, oil, gas or electric range—and time how long it takes to come to a boil.

Do the same thing in the same size pan of brass, copper or aluminum. If the water boils in five minutes in the Diamond or Pearl Ware saucepan, it will take eight minutes—three minutes more—in the pan made of brass, copper or aluminum.

Do you know that a Diamond or Pearl Ware pot that sold for $1.50 last year, can be bought now for 90 cents?

Diamond and Pearl Ware Save Fuel

Why waste fuel on all-metal or other ware, when you can buy Diamond or Pearl kitchen utensils at to-day's reasonable prices? Why not try this timing experiment and satisfy yourself?

Diamond Ware is blue and white outside with a pure white lining and three coats of enamel.

Pearl Ware is grey and white with two coats of enamel.
