**ELECTORS!**

There is positive evidence that a large corruption fund has been raised to purchase votes for Powell today. Marsters has probably called upon Toole and Boyd and the others to whom he gave away the property of Stevens, for some thousands of dollars, and other means of gathering funds, equally unscrupulous, have been resorted to. No means open to rascality will be left unused and it is well for the electors to know it. Let every man vote as he believes best for our beloved country. If money is pressed on you, take it if you must, but vote as conscience shall command. It is probably money stolen from somebody and while it would be better to have fought to do with it, you will do a double wrong by accepting it and voting contrary to conviction. The most sacred duty of man is to be true to his country, his children and himself.

Therefore we say, in all seriousness, if money comes so that you can accept it as a gift, so you can honorably receive it; take it, as much of it as you can get, but vote exactly as you would have done if there had been no money afloat. This is a very important election—an election that will inevitably be far reaching in its results and it is not too much to say that the eye of anxious Canada is now on Westmorland and that she expects every man this day to do his duty. Let the influences that operate to-day be patriotism, fidelity and honesty and the resulting influence will be to our credit and advantage. If this be done, Westmorland will once again command the leading position amongst the constituencies of New Brunswick and in the rapidly approaching re-organization she will be at once conceded a prominent place.

No dishonest man can fitly represent an honest people. Killam is honest—vote for him.

**A WARNING.**

A correspondent says the Powell heeler has devised another trick to use in order to carry the election to-day. The way that voters are to be handled is to first get a lot of ballots and mark them for Powell, and agree with the voter for one or ten dollars to put it in the ballot box. The voter is to be instructed to bring back a blank ballot, to be used again. If a blank ballot is brought back Powell & Co. will know the one marked by them has been used, and the blank ballot draws the cash from the agent of Powell & Co. One blank ballot, once in possession of Powell's agent will do service all day. This trick should be watched. In fact they should be closely watched in every other way, as nothing in the shape of trickery is too tough for them.

If this trick works I can almost see Toole and Powell, with their barrelful of smiles, exchanging notes after the election, making up the rum bill and telling how slick it was done, and also saying to each other confidentially, the "condemned laborer can work ten hours for the next five years, at all events, for any pay they can get. We are the people for another year. Shake."

**CORRUPTION BOODLE.**

The leading spirits in the Powell, Sumner, Cole, Boyd, Toole clique say they have \$20,000 to use in Powell's interest to-day, and this may be true.

Electors! Remember this is a corruption fund to corrupt the electors, to be used by those who have been, and others who want to be, law-makers, and contributed large-

ly by men right from the seats where this election law was made.

The money is not theirs. It was got by fraud from private individuals, or from the government. It would be difficult to find out how many a poor man and women was robbed of everything on earth to get the very money to be used to-day.

As the money belongs as much to the voters as to the parties who will offer it, I say take all they offer. It is public property, but do not allow the taking of it to influence you and cause you to change your vote from Killam to suit the corruption bandits, who boast that because they have a few dollars they can buy you to sell your country. Resist the insult and vote for Killam.

Take all the money, but vote for Killam.

You are justified in taking all the money donated, but your vote was never intended for an article of commerce. It was given you to use in the best interest of this great young country, but if electors allow politicians to buy them, they will also sell them. It will be a serious thing for Canada, and it will only be a short time till the resources of Canada are exhausted and she heavily in debt to enrich them. I know enough about Powell & Co. to know they can devise means to waste all the resources of Canada in a short time if they have a chance.

**GROSS WASTE OF THE PEOPLE'S MONEY.**

There was no need of putting Wood into the Senate and making a vacancy to be filled by an election. Wood could have waited another year, or until the general election.

The present unnecessary election will cost the people of Canada, taxpayers and contributors, at least thirty thousand dollars—a wilful waste of money. How much better to have had this money used in public enterprises than wasted in this way, doing harm instead of good. The party responsible for this great waste is represented to-day by H. A. Powell. Let Killam kill him and thereby rebuke such reckless waste of the people's earnings.

**THE CANADIAN PRAIRIES.**

"If a horse could stand it," said S. A. Rowbotham, a well known resident of Winnipeg, Manitoba, "a man could leave Winnipeg and ride 1,000 miles west and north-west over a level prairie before he would be obstructed by the mountains. This gives an idea of the great territory lying west of Winnipeg, which to the eastern man, seems away out of the world. The soil of the prairie produces the finest spring wheat grown anywhere, and this enormous plain I've just mentioned will in a few years be the great granary of the world. Eastern people have a misty idea of our expansive territory. We are just commencing to grow wheat, compared to decade hence, though our crop two years ago was 30,000,000 bushels.

"We have but little snow, and in the many years I resided in Manitoba, I never saw the tops of the prairie grass covered. Cattle fairly roll in fat and we are becoming a great cattle country. While most of our settlers are across the water, yet the number from the Western States is yearly increasing. We have no Wild West frontier scenes. There are no settlers killed over disputed claims, as has been an every day story in the West for years. Our homestead laws require a three years' residence of six months each. Land may be pre-empted, too. Gold has been discovered in wonderful rich quartz deposits a few miles east of Winnipeg, and paying mills have just been erected by Minneapolis capitalists. I predict a rush to the Lake of the Woods district next year. Winnipeg has 35,000 inhabitants and is a thriving city. Our winters are cold, but we do not mind them. The atmosphere is dry and the days are clear, fresh and sunny, murky weather being almost unknown.

**THE BULL FIGHTS ARE OFF.**

ATLANTA, Ga., Aug. 23.—William H. Ballou has triumphed. The bull-fights have been off. At a meeting of the Exposition Directors held this afternoon resolutions were adopted instructing the president to order the Mexican Village concessionaries to do away with the feature of the show which has created so much adverse criticism. It was impossible to get the public to realize the difference between this histrionic production as President Collier calls it, and the real thing.

The directors felt, after seeing the preparations made by the concessionaries, that the fight would be necessarily in the nature of a fake, and that it would hurt the Exposition to have it. It is probable, however, that the decree of the board will be fought by the concessionaries, who have been making every arrangement to make this a big feature.

Vote for Killam and shorter hours.

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

**By Stopping the Little Leaks**

And losses great fortunes are accumulated. A loss of a few dollars on a suit of clothing may seem a small thing to some men, but it is losses such as these that make many men poor. The man who, instead of dealing with us, goes elsewhere and gets poor, shabby goods and slipshod, careless work in the making-up of these goods, is likely to look poor and feel poor, too, before many years. Gentlemen, stop these little leaks by dealing only with our firm, and you will then be sure of having clothing that will look well, wear well and fit well.

PIN WORMS.  
PILES**

No

**INTMENT**

ITCHING PILES is an exceedingly painful and annoying affliction, found alike in the rich and poor, male and female. The principal symptoms are a severe itching, which is worst at night when the sufferer becomes warm in bed. So terrible is the itching that frequently it is impossible to procure sleep. Often the sufferer unconsciously during sleep scratches the parts until they are sore—ulcers and tumors form, excessive moisture is exuded. Females are peculiarly affected from this disease, causing unbearable irritation and trouble. These and every other symptom of Itching Piles or Irritation in any part of the body are immediately allayed and quickly cured by Chase's Ointment. It will instantly stop itching, heal the sores and ulcers, dry up the moisture.

PIN WORMS is an ailment entirely different as a cause than Itching Piles, yet its effects and symptoms are exactly the same. The same intolerable itching; the same creeping, crawling, stinging sensation characterizes both diseases. Chase's Ointment acts like magic. It will at once afford relief from this torment.
