For further particulars SEE Small Bills.

What we Hear.

We heard the other day while in town a story which is worth repeating. A man called at Bibbee's Hardware Store and purchased some for the purpose of destroying Potato bugs, after he had used it most effectively, on his crop and destroyed a vast number of the *Thingamibobum Decemlineata*, a sort of scientific name (we believe) for the Colorado Bug, his hens got into the field and fared sumptuously on the dead and dying insects, and larvæ. A few days after it was noticed that the hens were laying eggs slightly tinted with a shade of emerald. These eggs having been cooked and eaten by some juvenile members of the family; they were taken ill, with all the symptoms of arsenical poisoning the roundabout result of the paris green put on the potato tops.

We hear that a Free man in Jackson-town being on the point of bartering his liberty away, had provided himself with a wedding garment, in which to appear at the 'sell.' But, on the eve of the eventful day, some unprincipled miscreant invaded the premises, and absquatulated with the new suit and nearly everything else portable, except a tiny golden band, which the free man had purchased as a token of submission to his future master. Reports say that he went like a lamb, to the (sacrificial) altar clad in an ironed-up suit that had fortunately been spared by the nocturnal marauder.

A German once undertook to learn English, after mastering some 4,000 words he began to think himself proficient and was discouraged to find he had something like 200,000 more to learn. There are about 250,000 words in the English language and we hear that most of them were used on a recent Sunday, by a lady in the county town, when on returning from church she discovered that her new bonnet bore a ticket, "Cheap, at \$2.75."

Keep Kicking.

Once upon a time, says a contemporary, two frogs who had been living in comfort and ease in a cool pool of clear water were accidentally scooped up by a pious milkman in a bucket of water which he poured into his can in order to give his milk more body, and thereby increase his revenue. The frogs were astonished to find themselves in an unknown element in which it was not possible to support life, and they had to kick vigorously in order to keep their heads above the milk. One of them, disheartened by being shut up in the dark in an element new to him said: "Let's give it up and go to the bottom; it's no use kicking any longer." The other said: "Oh, no; let's keep kicking as long as we can, and see what the outcome will be. Maybe things will change presently." So one frog gave up and went to the bottom. The other kept kicking, and when the pious milkman got to town and opened his can, behold! the frog had

kicked out a lump of butter large enough to hit him, and he was sitting on it as comfortably as ever, but keep kicking.

J. T. G. Carr is selling A Good Family Flour at \$4.00.

Forester's Pic-Nic.

From our advertising columns it will be seen that the Forester's Court in our little city, are going to show the public that they are really alive. They are going to hold a Grand open-air Fete, or Pic-nic on August 15th. We are pleased to see so much public spirit displayed by the members, and welcome the announcement of a day's enjoyment; there can be no doubt that a most successful and enjoyable Pic-nic will be arranged and conducted, as the committee of management is composed of gentlemen who are well-known, and who are determined to carry out all the details in a thoroughly practical manner. Messrs. F. D. Skinner, Jas. Miller, Alex. Lyon, Jas. Lyon, F. B. Thomas, J. McLachlan, Jun., C. Wilson, A. McIntosh, C. R. Thomas and P. Home, are the committee appointed to carry out the necessary arrangements. It is early yet, to say much about the programme for the day, but with such men at the head of affairs, it cannot fail to be a very attractive one.

(Liquid.)

Note.—This favorite medicine is put up in oval bottles holding three ounces each, with the name blown in the glass, and the name of the inventor, S. R. Campbell, in red ink across the face of the label. Beware of imitations; refuse all substitutes, and you will not be disappointed.
