We regret the delay in the publication of this week's issue. We did not have a full staff and the printing of the automobile section has taken considerably more time than expected. Special editions in the future will be handled more in advance than was the case this week.

George Baird, Alton Earle, Allison Olmstead and Christopher McAlden, students at Rothesay Collegiate School, returned on Wednesday after spending the Easter vacation period at their homes. Charles Palmer, who is also a student at Rothesay, went to Sackville on Saturday.

Last week a Toronto, Ont., printing salesman, very persistent and of gifted tongue, visited Perth and secured several nice orders, one or two, indeed, large. One of our good friends, whom he solicited, in order to get rid of him, called the editor on the telephone to inquire the price of a thousand bond envelopes and informed the salesman that they could be done considerably cheaper here. We do not claim that all our work is cheaper in price than city printers, but it will not average any higher and the quality of the printing is equal to the best produced, and better than some. As an example, a well-known medical man of Fredericton, stopping at a local hotel, saw some of our work and came in to place an order with us. For our business stationery we standardize on a good quality bond that is made in Canada, and sold in twenty-seven countries. We carry in stock even better bonds for occasional demand, but refuse to use a cheaper paper. Taking everything into consideration, paper, printing, price and the benefit of keeping the business at home, it would appear to be good business to let the NEWS' supply all printing requirements. Many do.

Two weeks ago we made an error, on account of receiving the information over the telephone when the line was noisy, in the account of the affairs at Bairdsville. Mr. Scott, and not Mrs. Scott, was responsible for the 67 candles on the birthday cake presented to him.

Friends will be pleased to know that Mrs. J. A. Perley is recovering from her illness of the past three weeks. Mrs. Perley, who observed her eightieth birthday in March, had always been a remarkably active woman, without a day of sickness until recently.
