Officers worked in perfect co-operation at Caribou, Maine, to stage one of the most sensational "cleanups" ever accomplished in Aroostook county, Maine, and believed to have solved the mystery surrounding the series of breaks and robberies in the central part of the county, resulting in a loss of nearly \$3,000 to property owners. Two New York men were arrested as they broke into the J. C. Penney store and later a woman at a boarding house where also was found articles stolen from several places. On account of the hurry and rush in getting out a newspaper, errors, grammatical, spelling and otherwise are bound to creep in, also errors due to wrong information, etc. Last week, in a local item about the increase in first class postage, the word "increase" was used in the first line instead of "decrease." Two weeks ago, on page one, in the valedictory speeches of Perth and Andover High Schools, five lines of the latter appeared at the bottom of the former, and one line of the Perth valedictory at the foot of the Andover one. Also in the issue of last week, a local item, taken from our Burnt Land Brook correspondence, stated that Mrs. Harold Lockhart was ill, which is not correct. In the report of an automobile accident in the last issue the driver of one car was given as John Gray and it should have been Russell Smythe. We try to correct all errors and welcome readers' assistance.

## California Man Makes Remarkable Statement

"I was always hale and hearty until about three years ago when I had an attack of influenza. This attack left me with numerous ailments from which I had never been able to recover. Ever since that time I have suffered from extreme nervousness, weakness, stomach trouble and constipation in their very worst forms. I seemed tired all the time.

"I would get so weak I couldn't stand up. I had not control over my nerves. At times I would be very melancholy and feel I was losing all my friends. In fact, I was losing all desire to live and enjoy life.

"Thank goodness! I'm all over that now since taking Sargon and feel like my old self again. My improvement is nothing short of remarkable. I would feel very ungrateful if I didn't let the public know about this wonderful new medicine."—E. H. Read, RFD, San Jose, California.
