GRAND FALLS, NEW BRUNSWICK THURSDAY, OCTOBER 6, 1932

PRICE FIVE CENTS

NUMBER 6

Agricultural Short Course Opens at Fredericton Nov. 1

Programme for 10th Annual Course at Experimental Farm School is Announced—Special Prizes Offered for Students.

The New Brunswick Agricultural School will conduct its tenth short course at the Dominion Experimental Station, Fredericton, from November 1 to December 9. The course offered is of a general nature, designed for boys of sixteen years of age and over who wish to improve their knowledge of agricultural science and to increase their general practical efficiency about the farm. A condensed course of five weeks duration has been arranged to facilitate attendance by boys who cannot be spared from the farm for a longer period. The curriculum includes animal husbandry, veterinary science, dairying, bee-keeping, poultry, horticulture, field husbandry, and farm mechanics. Lectures will be held in the gymnasium of the Dominion Experimental Station and the free use of the entire grounds and buildings of the station will enable students to augment theory by practical demonstration.

O. C. Hicks, B.S.A., will again be principal of the school and under him will be a competent lecturing staff selected from the Provincial Department of Agriculture, and the Dominion Experimental Station.

The Fredericton Rotary Club has already posted a prize of ten dollars to be awarded to the student showing the highest standing upon completion of the course in December. In addition a list of prizes covering each of the various subjects has been subscribed by the following:

The New Brunswick Farmers' and Dairymen's Association offers scholarships of the aggregate value of one hundred dollars. These awards are not based upon proficiency in studies. Definite announcement of the manner of the distribution of these scholarships will be made later.

The Junior Farmers' Association, ex-students of this school offers a prize to the student having the highest standing in livestock judging and management.

The Poultry Producers of New Brunswick offers a prize to the student having the highest standing in poultry.

The New Brunswick Sheep Breeders' Association offers a prize to the student having the highest standing in sheep judging.

The T. Eaton Co., Maritime, Ltd., Moncton, offers prizes to the amount of the travelling expenses and board at the school to two boys, or if girls, their expenses and board at the Women's Institute Short Course in Domestic Science at Sussex, one a member of a Calt Club and one a member of a Swift Club.

Oct. 3—Fred Giberson, of Carleton, was a business caller here Friday.

Miss Helen Jamer, of Four Falls, is visiting her aunt, Mrs. Ira Weatherhead.

Three of our girls are attending Sacred Heart Convent in town: Misses Elaine Toner, Alice Weatherhead and Eva Downing.

Miss Grace Gillespie has been ill this week with an attack of pleurisy.

Mr. and Mrs. John Wright returned home Sunday after having visited their son, Herman, and Mrs. Wright, for a couple of weeks.

Miss Gertrude Gillespie has been hired to teach at the Lower California school, which will commence November 1.

Thomas Wright won the highest award in the school for the home garden plot, making an average of 96. Harold Gillespie came second and won second highest award.

With the heavy cut in acreage, our potato crop through this section is considerably smaller than last year. By the end of the week the crop is expected to be over half harvested. Some of the best fields are yielding 100 and 125 barrels to the acre, while the average yield seems to be around 75 and 80 barrels to the acre. The market, however, is showing a firmness and an upward trend and farmers are advised to hold their stock for better prices.

MRS. WILLIAM GRANT

The death of Mrs. William Grant occurred at her home on Rockland Road, near Hartland, following an acute attack of heart trouble. She was 60 years of age, a daughter of the late James and Rebecca McClarey, being born at Tracey Station. She was twice married, her first husband being Addison Bradley. Of this union six children survive, Winston Bradley, Presque Isle, Me.; Mrs. Warren White, Detroit; Mrs. Benjamin Brown, Rockland; Mrs. Benjamin Ginson, Simonds; Mrs. Arnold Hallett, Rockland, and Jennie Belyea, in the United States. Another son, Herbert Bradley, made the supreme sacrifice in the Great War. Later she married William Grant, who survives. Among a large number of other surviving relatives are four sisters, Mrs. Edmund Hovey, Hartland; Mrs. Ella Saunders, Perth; Mrs. Wentworth Dow, Lower Brighton, and Mrs. Gertrude Saunders, Hartland. Another sister, Mrs. Jane Day, Hartland, passed away only two weeks previously.

Funeral services were held at the home and the Reformed Baptist Church, conducted by the pastor, Rev. H. S. Dow, assisted by Rev. Hedley Bragdon and Rev. A. W. Brooks. Many floral tributes bore testimony to the esteem in which she was held. The pallbearers were Arnold Hallett, Benjamin Brown, Fred Saunders and Kenneth Ginson. Interment was in Greenwood cemetery.

MINISTER OF LANDS AND MINES ISSUES WARNING TO HUNTERS

Law Regarding Shooting Accidents to be Rigidly Enforced—Cooperation of All Sportsmen Confidently Expected.

Hon. L. P. D. Tilley, K.C., Minister of Lands and Mines for the Province of New Brunswick, warns all hunters entering the forests to exercise the greatest of care in the use of firearms.

The Minister draws attention to the section of "The Game Act" which deals particularly with shooting accidents and which provides that whenever the Minister is satisfied either upon a report from any Game Warden, or from the Royal Canadian Mounted Police, that any person, has either by discharging any firearm or causing any injury to any other person, he shall not issue any hunter's license of any kind to such first mentioned person for a period of not less than two and more than five years.

The assistance and co-operation of all sportsmen in making the New Brunswick forests safe for all is confidently expected. The slogan appearing on all game licenses "Do not shoot until you are sure what you are aiming at," is a worthwhile precaution.

PLOUGHING PRACTICES

(Experimental Farms Note)

In preparing land for the planting of farm crops, the plough is undoubtedly the chief implement of cultivation. Ploughing practices vary greatly in different parts of the country. In order to get some comparative information on the different practices, experiments have been carried out at the Experimental Station at Lennoxville, Que., for a number of years, on different depths and times of ploughing.

On an average, over a period of nine years, ploughing four inches deep for a rotation of corn, oats, clover and timothy has given higher yields than has ploughing seven inches deep, except in the case of oats, in which the yields have been practically the same. The shallow ploughing is of particular advantage to the corn crop.

In the preparation of sod land for grain, it has been found that ploughing in July, as soon as the hay is off and top-working during the summer has not only given higher yields of oats, but has also left the land free from couch grass. The experiment has shown that on sandy loam soil, it does not pay to either rib the land or re-plough in the fall. On heavy clay soil, ribbing or re-ploughing late in the fall gives the frost a chance to mellow the soil and leave it in a better state of tilth.

In the preparation of sod land for corn, manuring on the sod and spring ploughing has given higher yields than manuring and fall ploughing.

It would therefore appear that for corn on sandy loam, the land should be manured and spring ploughed four inches deep, while for grain, it should be ploughed as soon as the hay is off and top-worked.

EGG SIZE IMPROVES

One of the features of the Canadian National Egg Laying Contest at Ottawa this year is the noticeable improvement in egg size. In the scoring points in these contests it is not the number of eggs alone which counts but of equal importance is egg size. Following is the record of some of the outstanding birds:

Bird	Points
50 R.R. Scott P. Fm.	277.6
212 B.R. J. A. Dawson	263.9
219 B.R. W. J. Johnston	261.7
578 W.L. G. S. Taylor	260.4
577 W.L. L. D. Robinson	258.7
144 B.R. Ont. Agr. Coll.	252.4

SUCCESSFUL FAIR

The South Tilley Fair, provided with fair weather, came to a successful close last night, yesterday being the "big" day with a large attendance. Baseball games were played both Tuesday and Wednesday afternoons, also the horse-pulling events were held each afternoon. There was a good display of exhibits in the hall and of animals nearby. A report of the fair, including the complete list of prize-winners, will appear in the next issue.

JUBILEE W. I.

The monthly meeting of Jubilee W.I. met on September 27 at the home of Mrs. Wesley Crone, with 16 members and 29 visitors present. In the absence of the president, Mrs. J. W. Tapley, Mrs. Geo. MacConnell presided.

Roll call was answered by a sample or description of a Canadian industry. Many products were shown and described by the members. Discussed the giving of school prizes in case of a tie. Moved by Mrs. Wright, seconded by Mrs. Vandine, that each district make up a second prize. Carried. A circular letter on Education and Better Schools read by Mrs. B. P. Witherly; another on Legislation read by Mrs. M. Flanders; one on Immigration read by Mrs. N. Wright. These were all helpful and instructive. School and sick committees then reported, and it was decided to get a pair of blankets for a family who had lost their home by fire.

A hearty welcome was then extended to Wildwood Institute and all other visitors present, to which Mrs. Roy Stevenson, president of Wildwood W.I., responded.

Mrs. Crone, as convener of Canadian industries, prepared and read a very interesting paper on that subject. A humorous reading given by Mrs. Karl Neilson was very much enjoyed by all. All joined in singing "The Maple Leaf Forever."

The county prizes for highest high school entrance and matriculation were won by two Plaster Rock girls, Eileen Green and Margaret Marston.

Mrs. Peter L. Hansen, county president, prepared a very beautiful address to be read to the prize winners, as she could not be present. This was read by the county secretary, Mrs. Wesley Crone, after which she presented the prizes to the two young ladies who were present. Little Miss Margaret MacConnell then recited "Children of the Empire," after which she and little Miss Dorothy Crone did a Highland dance, dressed in Scottish costumes. Short speeches were then made by some of the visiting ladies, and with the flag salute and "God Save the King," the meeting was brought to a close.

After the meeting we all enjoyed "a nice wee cup a tea" with plenty of sandwiches and cake. Those who assisted the hostess with the refreshments were: Mrs. J. Hiscock, Mrs. Briggs, Mrs. Neilson, Mrs. E. Burgoyne, Mrs. Vandine, Mrs. Gough, Mrs. Wright, Mrs. Galloway, Mrs. Page, Greene, Mrs. MacConnell.

Publicity Convener.

FOTATOES

A few cars of potatoes have been shipped during the past few days. There has been a slight strengthening in the market, local growers now receive 55 cents in the vicinity of 55 cents a barrel. A few farmers have just commenced digging and others have finished.

WHAT IS A "BACON HOG"?

This type of hog must have length of side, as the middle is the most valuable part of the carcass. The standard length of the ideal Wiltshire is 30 inches from round bone to front edge of first rib. The hog should be of uniform depth with trim, straight underline. The head should be of medium length with a slightly dished face, broad forehead, and rather small, firmly attached erect ears, fringed with fine hair. The neck is well muscled with no tendency to arch on top. The jaw should be trim but not heavy and flabby or coarse. Smooth, compact shoulders are essential and this requirement is easily understood when the relative price of shoulder meat is compared with other cuts of the carcass. The back should be slightly arched from neck to tail with a well-sprung rib dropping straight, giving a smooth even side blending with shoulder and hind-quarters.

Finish, which is so important, is clearly indicated in the top line. Well-finished hogs are of medium width throughout, indicating a full deep loin and a long well-developed rump. Ideal finish gives a carcass that cuts out with 1 1/2 inches of fat evenly distributed along the back. The ham is described as smooth and tapering, having no excess bulks of fat, as such necessitates more trimming.

The bacon type hog is slightly long of leg and strong of bone but the bone is clean and flinty without puffiness, and the pig stands straight and strong at the pasterns. Quality of bone is very significant in the live hog as it is invariably correlated with constitution and feeding capacity. In short, the bacon hog is a stretchy, smooth quality animal possessing thrift and excellent feeding qualities, and when finished to an average weight of 200 pounds, exhibits an ideal carcass when slaughtered.

VERDICT FOR C.P.R.

In the civil case of Jessie Williamson and her husband, Frank Williamson, vs. the Canadian Pacific Railway Company, concluded on Thursday, the jury returned a verdict in favour of the defendant. Each plaintiff had asked \$5,000, as a result of alleged injuries received by Mrs. Williamson on the Curry station platform. Extracts of evidence of all witnesses was published in last week's issue.

THANKSGIVING HOLIDAY

Monday, October 10, Thanksgiving, will be observed as a holiday by business places being closed on that day.

SISSON BROOK WOMEN'S INSTITUTE

On Friday last Sisson Brook Branch W.I. held regular meeting. Mrs. Earle Chapman was the hostess, with 13 members and four visitors present. Meeting opened in ritual form, and the general routine followed.

Report from sick committee was given. Everyone convalescent, and it was voted to send fruit again to those yet ill.

Report of work done—sewing and clothing donated to help needy family.

Correspondence read from provincial conveners of immigration, education, and legislation. Letter from the latter re mental defectives in N.B. Decided to get in formation re number in New Brunswick, as we understand N.B. has had medical survey of Province with that end in view.

It was found three members have birthdays in October. A celebration will be held for these at the home of one, Mrs. Raymond, on October 19.

Decided to invite Jubilee Institute to meet with us next month. The new printed programmes were in evidence at this meeting. Mrs. Walter Clyde, convener of home economics, gave an excellent paper on "Tea," and her contest was ingeniously made on little teapots drawn on paper. A comic reading was given by Mrs. Hamilton and another reading given by Mrs. Clara Chapman.

Mrs. Raymond reported tickets for the Royal Victoria Hospital, drawn was found to be 145, held by Mrs. Geo. Everett, Riley Brook. Assistant hostesses, Mrs. Ben Flanders, Mrs. Hamilton, Mrs. Jenkins, Mrs. Chapman. Four new members joined. Meeting closed with singing "God Save the King."

RED RAPIDS AND PLASTER ROCK WON

Playing at the South Tilley Fair Tuesday afternoon the Red Rapids baseball team defeated Rowena, score 30-13.

Wednesday afternoon Perth and Plaster Rock nines playing, the latter team won, score 6-4.

COMPARATIVE TEMP. AND RAINFALL

For September 1932-1931 at Aroostook.

Year	Mean Temp.	Max. Temp.	Min. Temp.	Rainfall
1932	57.5 F	64.4 F	52.0 F	86.0 F
1931	57.5 F	64.4 F	52.0 F	86.0 F

Max. temperature, 1932, on 3 and 5; 1931, on 13.

H. WALKER.

Partridge Season In New Brunswick Opened October 1

Reports Indicate Partridge are Plentiful—Flocks of Young Birds Reported Large—Open Season Same as 1931—Bag Limits Unchanged.

The open season for the shooting of partridge in New Brunswick was inaugurated on October 1 and extends to October 15, both days inclusive.

Reports reaching the Department of the Chief Game Warden at Fredericton indicate that partridge are more plentiful this year than usual. The past season has been especially good for the raising of young birds and reports received from Game Wardens indicate that the flocks this year are exceptionally large.

An open season has been authorized in all parts of New Brunswick with the exception of the islands of Grand Manan, Campobello and Deer Island. The daily and seasonal bag limits are the same as that of 1931. Six birds may be taken daily when seasonal bag limit of twenty. The Game Act further states that not more than 12 partridge may be retained by the person killing same for 10 days after the close of the open season.

A resident of the province who desires to shoot game birds only may obtain a game bird license, but the privilege to shoot game birds is also included in the deer license and the moose and deer license at no additional cost. Non-residents who are the holders of deer licenses or deer and moose licenses are also allowed to take the daily bag limit of partridge without an additional fee, but are not allowed the privilege under this license of shooting other game birds such as ducks, geese and quail. A special non-resident bag license is available for non-residents wishing to shoot ducks, geese and quail. Migratory game birds killed during the legal season may be retained for one month following close of open season.

Unlighted Vehicle Hit By Truck

About five o'clock Friday morning a gravel truck collided with a double team-load of grain on its way to Four Falls from Arthur-ette. The accident happened in front of the home of B. S. Moore, Andover.

The horse-drawn vehicle carried no lights or reflectors, contrary to law, and the driver of the team stated that his employer had not given him a lantern although he had requested one before he set out, leaving Arturette about midnight in order to reach the mill when it opened in the morning. The wagon was damaged to such an extent that it had to be repaired immediately. There were two or three trucks engaged in hauling gravel coming along at the same time and one had no load. The grain was placed on this truck and taken to the mill while the wagon was removed to Zwicker & Brooks' shop for repairs.

TEACHERS' INSTITUTE

A public meeting will be held on Thursday evening, October 6, in connection with the annual meeting of the Victoria-Carleton Teachers' Institute at Woodstock. The principal speaker will be Prof. A. C. Krug, of Mount Allison University, Sackville, N.B. The teachers will have business sessions on October 6 and 7. The schools of the two counties will be closed on the days the institute is in session.

THE JURIES

The petit juries for the Theriault and Williamson cases before the Circuit Court at Andover last week were composed of the following: (Theriault case), Archie Goodine, A. W. Stevenson, Gilbert Gee, William Foster, Archie Henderson, Samuel Sprague, Oscar Hartley, Alex Matheson, Frank L. Craig, Benjamin Caldwell, James Giberson and Carl Brinkman. (Williamson vs. C.P.R.), A. W. Stevenson, Miles F. Grant, Benjamin Caldwell, Archie Henderson, Alex Matheson, Sr., Samuel Sprague and George DeMerchant.

LOCAL FIRMS GAZETTED

The Royal Gazette this week carried the following: Notice of the incorporation of Guy G. Porter and James E. Porter, merchants, and Newton A. Rogers, accountant, all of Perth, as Porters, Ltd., with a capital stock of \$10,000 and head office at Perth, to carry on a general agricultural, mercantile and trading business. Notice of the general partnership of A. Mallinson, New Westminster, B.C., broker, and Herbert M. Mulherin, Grand Falls, merchant, as the Potato Growers' Association of New Brunswick, for the purpose of carrying on a general potato business at Grand Falls.

PLASTER ROCK HIGH SCHOOL

The School Fair held September 30 was a decided success. The rooms which were used to place exhibits in, were very prettily decorated with autumn leaves and moss, with here and there a cluster of red berries. Entries were brought in until 10 a. m. The doors were then closed and the judges did their work. The fair was open to the public from 2:30 to 5:00. Prizes were given to the scholars on October 3. Prizes were also awarded to those who took part in the races and other sports of the day.

On account of P.R.H.S. boys not being able to organize a football team, the H.H.S. boys did not arrive to play a game of football on October 1.

The Senior Class has held several meetings to decide about their class rings or pins, but each meeting closed without any definite decision. Nevertheless, we still have hopes of getting them before June.

The inquiring reporters would like to know if Joffre Ingraham and Ivan Stairs were judges of the candy at the school fair on Friday, or did they only sample it because it suited their taste?

Grade Eleven would like to know if it would be possible to place Mac Fraser in an airtight aluminum container to find out if a compass needle would point directly north and south.

School Editor, Emmie Briggs, Assistant, Helen Smith.

ARTHURETTE

Oct. 3—The supper held at C. A. Tweeddale's on Wednesday evening in the interest of the Episcopal church, was quite largely attended in spite of the heavy rain storm.

Friends of Mauzer Giberson are glad to hear that he is convalescent after undergoing a serious operation in Fort Fairfield hospital, where it was found necessary to amputate one of his legs.

Mrs. S. M. Campbell entertained a number of friends at her home on Tuesday evening, the occasion being her birthday.

Norman Sisson returned from the Woodstock hospital on Saturday last much improved in health.

Mr. and Mrs. Fred A. Campbell and Mr. and Mrs. Frank Giberson spent Sunday in Fort Fairfield.

Miss Madelyn Giberson is spending some time at Odell with Mrs. Hubert Wright.

Mrs. W. Surge has gone to Easton for a few weeks.

COOPER—WILEY

The United Church, Grand Falls, was the scene of a very pretty and interesting wedding on Monday evening at eight o'clock, when Marjorie Eileen Wiley, only daughter of Mr. and Mrs. H. E. Wiley, became the bride of Dr. Edgar Montross Cooper, of Montreal.

The church was beautifully decorated with evergreens, fern, and a profusion of cut flowers by friends of the bride. The guests were ushered to pews marked with white satin bows and clusters of hydrangeas. The church was filled to capacity with friends. Rev. A. D. Archibald performed the ceremony.

The bride entered the church on the arm of her father to the strains of the bridal chorus from Lohengrin. The bride looked very charming in a gown of eggshell satin, made on long tulle with train. Her bridal veil of tulle was worn in cap effect, held to the head by tiny pearls, egg-shell satin slippers, stockings and gloves to match, and carried a shower bouquet of sweet-heartroses tied with white tulle.

The bride was attended by Miss Grace Eileen Kirkpatrick, who wore a gown of mauve taffeta and little hat with half-length face veil, accessories to match, and carried a bouquet of single mauve and yellow chrysanthemums, tied with yellow tulle. Tiny Naida White, as flower-girl looked very daintily in a frock of light green crepe de chene, with hand of yellow and mauve rosebuds in her hair, and carried a basket of sweet-peas.

The bride's mother wore an ensemble in a lovely wine shade, with hat in matching tone and face veil and silver fox scarf.

The groom was supported by Donald Wiley, brother of the bride, Hugh Folster and Wade A. Taylor were the ushers.

During the signing of the register, Herman McMillan rendered a violin solo, "Roses of Picardy." As the bridal party left the church, Miss Helen Hallett (organist) played Mendelssohn's wedding march. Reception was held immediately afterward in the Masonic hall, which was tastefully decorated. Rose and white was the colour scheme, with autumn foliage and flowers. Over 100 guests were present.

Mrs. J. L. White and Mrs. F. W. Olmstead presided at the urns. A four-tiered wedding cake with miniature bride and groom centered the bride's table, which was laid under an arch of evergreen and flowers. The guests were served by girl friends of the bride.

A four-piece orchestra was in attendance and dancing was enjoyed by a large number of the guests. The bride who is very popular, graduated from Grand Falls High School in 1924. Later she took up domestic science at Mount Allison, and in 1930 graduated from Royal Victoria Hospital, Montreal, and has since held a position on the hospital staff as head nurse in one of the women's surgical wards.

Dr. Cooper is on the surgical staff of the Royal Victoria Hospital. For travelling the bride donned a navy blue crepe ensemble with fawn trimmings, hat, handbag and accessories to match. Dr. and Mrs. Cooper left by C.N.R. for Montreal from where they will sail for Bermuda. On their return they will reside in Montreal.

The bride received many lovely and costly gifts.

Dr. and Mrs. Cooper have the best wishes of a host of friends for every success in their future.

ENTERS ORDER

Guy L. O'Regan, son of Mrs. Marie O'Regan, and the late Joseph O'Regan, left on September 23 for Toronto, where he will enter the Basilian Order.

Following his graduation from Grand Falls High School in 1926, he attended the Provincial Normal School Class of 1927, teaching school at St. Leonards the following two years. For the past three years he was a student teacher at Bathurst College, receiving his B. A., with distinction in 1932.

Mr. O'Regan is 23 years of age and was very popular with both old and young. He will be greatly missed by the Grand Falls Baseball Club, as he was an active member, and everyone wishes him success and happiness in his chosen profession.

KILBURN

Oct. 4—The Ladies' Aid of the United Church met at the home of Mrs. Jack Paul on Friday evening last.

Mr. and Mrs. F. L. Dinsmore and family, of Easton, Me., Mr. and Mrs. Roy Baird and daughter, Lillian, Mr. and Mrs. P. H. Bishop spent Sunday with Mrs. John Grant.

Mrs. J. Ogilvy and daughter, Betty, Mrs. B. Kilburn, Miss Elva Kilburn, accompanied by Mr. Harper and Miss Harper, of Jacksonville, motored to Meductic on Saturday.

Miss Shirley Grant spent the week-end with Miss Lena Baird, of Bairdsville.

Miss Glenna Bishop is spending a few days with Mrs. Stewart Bishop.

The Ladies' Aid of the Baptist church met at the home of Mrs. J. Hallett on Friday last.

Mr. and Mrs. M. B. Grant and daughter, Arlene, accompanied by Miss Ola Milbury, spent Sunday at Reid's Island, guests of Mr. and Mrs. Margison.

"At what point," asks a judge, "is a man drunk?" Usually at the point where the car leaves the road.—Austin American.

New Brunswick Big Game Season Opened October 1

Open Season for Partridge October 1 to 15—Outfitters Predict Good Season—Game Plentiful.

In view of the fact that the depression has lowered all commodity prices, most of the guides have reduced their rates to such an extent that sportsmen may hunt big game in New Brunswick today at no greater cost than formerly was incident to a fishing trip.

With regard to the hunter's actual chances for getting big game, it should be pointed out that the wooded areas of New Brunswick are considered by experts to be one of the few unimpaired moose hunting sections now remaining on the North American Continent. In addition, although almost ten thousand red deer are taken annually in New Brunswick, this species has shown a steady increase during the last five years. At the last annual meeting of the New Brunswick Guides Association it was also a unanimous opinion among the attending guides that the partridge or ruffed grouse is also on the increase.

An attractive feature about the licenses is that both the non-resident moose and deer license and the non-resident deer license entitle the holder to his daily bag limit of partridge.

Among an increasing number of United States sportsmen a New Brunswick black bear offers a bigger trophy than a bull moose and in recognition of this, both the moose and deer and the deer licenses allow visiting sportsmen to take black bear at no additional charge.

The open season for moose, deer, and bear extends from October 1 to November 30. The partridge season covers the first fifteen days of October. The season for ducks, geese, brant, coots, gallinules, and rails has already been under way for a fortnight or so, the open dates on these species of birds extending from September 15 to December 31.

RED RAPIDS

Oct. 5—Mrs. C. J. Roberts and Mrs. E. B. McLaughlin motored to Fredericton Saturday, returning home Monday.

Mrs. A. C. Smith, Mrs. C. Gillies and Miss Lydia Gillies motored to Chipman Friday and were weekend guests of relatives.

C. J. Roberts and Malcolm McKellar motored to Fredericton on Wednesday to attend the Liberal meeting.

The many friends of Mrs. Geo. Sutherland, Jr., will regret to hear of her illness and hope for a speedy recovery.

Mrs. Herman White, of Fort Fairfield, Me., was called home by the sudden illness of her father, Henry Gallop, Harold Gallop, of Waterbury, Conn., was also called home.

Mrs. E. Bruce Wright and daughters, Geraldine, Melissa, Eloise and Mary Jane, Mrs. Walter Knowles and sons motored to Woodstock and spent the week-end with Mrs. Kenneth Gibson.

Alvin Troner and daughters, Rose and Margaret, and son, Harold, of Oakland, Michigan, were recent motor guests of relatives and friends.

Mrs. Herbert Gallop motored to Presque Isle Monday and spent a few hours with her sister, Mrs. Geo. Sutherland, Jr., who is a patient in the hospital there.

Miss Geneva Murchland, of Wapske, was t ehguest over the week-end at the home of Mr. and Mrs. Ed. Tomlinson.

Frank Inman, who is employed at Fort Fairfield, spent Sunday with Mrs. Inman, who has charge of Lieford school.

On Thursday evening of this week a social evening sponsored by the Victoria Women's Institute, will be held at the home of Mrs. J. D. McLaughlin. Each member to make up one table of cards, progressive auction, forty-five, prizes awarded and refreshments served.

MAY USE NORTHERN ROUTE

Negotiations are being made with a view to the shipping of cattle from Canada's new northern sea port, Churchill, to the United Kingdom. Canadian cattle bound for Britain are now sent by rail 2,000 miles from Calgary to Montreal and by sea from Montreal, Halifax, or Saint John. In view of the successful shipping of grain to the United Kingdom and the Continent from the northern seaport, arrangements are being discussed for the shipping of mixed cargoes of both grain and cattle. Canadian cattle exported to Great Britain during the present season of navigation, up to the middle of August amounted to 15,641 head, an increase of 1,156 over the shipments for the same period in 1931.

At the Royal Winter Fair last year the Hon. Robert Weir, federal Minister of Agriculture, stated that consideration was being given to the feasibility of using this northern route to ship feeder cattle to the Maritime provinces.
