A Terrible Iron-Clad.—Prussia has just come into possession of the most powerful iron-clad vessel in the world, under the following singular circumstances;—Three years ago the Sultan of Turkey wanted an Iron-clad which would surpass all others in size, speed, armour and armament, and the Thames Iron Works Company of London, contracted to build such a ship. A failure of payment on the part of the Turkish Government left the vessel in the hands of the Company, and it was offered at bare cost to the British Admiralty. Circumlocution and red tape delayed the decision, and meanwhile the Prussian Government offered to purchase the ship upon a considerable advance upon the price at which it was tendered to Great Britain. The contract had hardly been signed transferring the iron clad to Prussia when the British Admiralty appeared as purchaser, but too late. Thus the King William passes to Prussia, and the London *Times* in view of the possibility of some time seeing her arrayed against British frigates, says:—"Woe betide any of our vessels of the 'Warrior' or 'Minotaur' class which shall meet her." This new and formidable iron-clad is 355 feet in length; breadth 90 feet; of six thousand tons burthen; her engines, nominally of 1,500 horse power, can be worked up to 7,000 horse-power and the ship is so armored as to present at no point less than six inches of solid plate, and generally eight inches, backed by ten inch teak, and a double iron skin. Her armament includes 26 three hundred pounders, and 700 men will be required to man the ship. This splendid ship, costing £400,000, is pronounced to be "in strength and armament a fleet in herself," and her purchase by Prussia may be taken as an indication of the intention of that government to be as invincible on the seas as she has lately shown herself to be on land.

A singular suicide was committed by a young man named George Kullings, recently on board the steamer Morning Star, while on the way from Tell City to Louisville. While in the cabin he deliberately pulled off his coat and vest, stepped out on the railing, and jumped overboard. He struck the water between two large cakes of ice, and these, being close together, prevented his sinking immediately, and supported him in an upwright position, with nearly his entire body above the hips out of water. While in this situation ropes were thrown to him from the lower deck of the boat, but these he steadfastly refused to take hold of. The yawl was then lowered, and two of the boat's crew, jumping into it, rowed it to within six or eight feet of the young man, who still maintained his position between the two cakes of ice. They reached out an oar to him, laying it on his shoulder and begging him to take hold of it and permit them to draw him into the boat. This he refused to do, with an oath. He then, with much effort, pushed the cakes of ice asunder, and in a moment afterward his body suddenly sunk beneath the surface and was not afterwards seen.

"Den I Sthop."—A few days since an honest Dutchman gave the most striking proof of willingness to conform to the law in one of our interior villages. He was brought before a justice on a charge of selling liquor, and fined ten dollars.

Vell, said he, you fines me ten dollar, I pay him, and now I sells.

And the next time, said the justice, you will be fined twenty dollars.

Vell, you fine me twenty dollars, I pay him too, and den I sells.

And for the third offence you will be fined one hundred dollars and imprisoned for three months in the county jail, replied the justice sternly.

The over confident Teuton seemed to be getting a new idea of the operation of the Prohibitory Liquor Law by this time, and after thinking a moment be scratched his head, exclaiming, "Vell,den I sthop."

A celebrated divine, who had prided himself upon his originality, and who would reject his best thought if he imagined it was traceable to any previous author, was startled one day by a friend cooly telling him that every one of his favorite discourse was stolen from a book he had at home. The astonished writer, staggered by his friend's earnestness, he begged for a sight of this volume. He was, however, released from his misery by the other smilingly announcing the work in question to be "Johnsons's Dictionary" where, continued his tormentor, "I undertake to find every word of your discourse."

A Big Gun.—A notorious liar who never allowed himself beaten in telling whoppers, was listening to the statement made by Parton in the Atlantic relative to the manufacture of big guns at Pittsburg. After hearing the entire statement he remarked that they were nothing to a gun which his grandfather managed during the Revolutionary war. Why, the gun, said he, was so large that they used to draw in the charge with a yoke of oxen. A bystander thinking to stagger him, incidentally inquired how they got the oxen out. Scratching his head for a moment he exclaimed—O, the easiest thing in the world, they unyoked and drove them out of the touchhole!

An Improved System of Ventilation.—A Novel Test.—A novel plan was recently adopted at Berlin for testing the working of a ventilating apparatus attached to the new large hall of the Lower House of Representatives. The 300 men engaged in erecting the building were provided with cigars—we are not told whether Imperiales or Pickwicks—and shut up in the Hall, with general orders to "blow away." After a lapse of three hours, the thermometer showed a rise of only one degree, and the atmosphere was comparatively pure, notwithstanding the amount of tobacco which had been smoked.

What a Physician should be.—There is not a more angelic office on earth—the ministerial office alone excepted—than that of enlightened, high minded, benevolent and pious physicians; one, we mean, who is highly imbued with the love of improvement and the spirit of doing good. Such a man comes the nearest—with the single exception we have named—to the character of our Lord and Master: and when the day shall reveal the truth concerning human character, will be found so.

During the recent restoration of a Church in Brighton, occupied by the advanced Ritualists, one of the workmen employed, ascending the pulpit, exclaimed, "I publish the banns of matrimony between this church and the church of Rome." "And I," said another artisan, turning towards the first speaker, "forbid the banns." "On what ground?" inquired he of the pulpit "'Cos the parties is too near akin," was the reply.

It is a curious circumstance that the Roman Catholic and Episcopal churches, while making a wide distinction between the priesthood and the laity, recognize no distinction of color in their members. In the most fashionable churches in Washington, a black man and a Judge of the Supreme Court may kneel side by side at the sacramental table.

Which are the uttermost parts of the earth? asked a schoolmaster of one of his boys. The parts where there are the most women, answered the head boy. What do you mean by that Brown? asked the teacher. I mean, was the reply, that where there are the most women there is the most uttered.

What a fine head your boy has, said an admiring friend. Yes, said the fond father, he's a chip of the old block; ain't you, sonny. I expect so, my teacher said I was a young blockhead.

R. R. R. PILLS.

DR. RADWAY'S PILLS—Dose—For Regulating the Liver, Stomach, Bowels, and promoting Digestion, *One* Pill at *Night*. For Obstinate Diseases and Chronic complaints—4 to 6—every 24 hours.

DR. RADWAY'S PILLS are COMPOUNDED FROM VEGETABLE EXTRACTS, Coated with Sweet Gum, and are the best, quickest, and safest Purgative, Aperient, Anti-Billious and Cathartic Medicine known to Medical Science.

One of Dr. Radway's Pills contains more of the active principle of cure, and will act quicker on the Liver, Bowels, Stomach, Kydneys, Bladder, Blood, &c., than four or six of the ordinary common Purgative Cathartic Pills sold under various names, or than ten grains of Blue Mass.

TRUE COMFORT FOR THE AGED AND OTHERS AFFLICTED WITH COSTIVENESS AND PARALYSIS OF THE BOWELS.

ONE TO THREE OF RADWAY'S PILLS—Once in 24 hours will secure regular evacuations from the bowels. Persons who for 20 years have not enjoyed a natural stool, and have been compelled to *use injections* have been cured by a few doses of Radway's Pills.

READ THIS.

New Albany, Ind., March 12, 1867.

For forty years I have been afflicted with costiveness, and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses, my liver, stomach, and bowels were restored to their natural strength and duties. I have now a regular movement once a day, and, although 80 years of age, feel as hearty and strong as I did 40 years ago.

Dr. Radway, N. Y. Thos. Redpath, J. P.

MECHANICAL DISEASES.

Persons engaged in Paints, Minerals, Plumbers, Type Setters, Goldbeaters, Miners, as they advance in life will be subject to paralysis of the bowels, to guard against this, take a dose of Radway's Pills once or twice a week as a Preventive.

DR. RADWAY'S PILLS CURE ALL DISEASES

Of the Stomach, Liver, Bowels, Kidneys, Bladder, Nervous diseases, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, Bilious Fever, Inflammation of the Bowels, Piles, and all derangements of the Internal Viscera. One to six boxes warranted to effect a positive Cure. Purely vegetable, containing no mercury, minerals, or deleterious drugs.

Dr. Radway's Pills sold by all Druggists and Country Merchants.

Price, 25 Cents.

Sudden Colds, Coughs, Influenza, Diptheria, Hoarseness, Sore Throat, Chills, Fever and Ague Mercurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also take a teaspoonful of the Ready Relief in a glass of warm water, sweetened with sugar or honey; bathe the throat, head and chest with Ready Relief, (if Ague or intermittent Fever, bathe the spine also,) in the morning you will be cured.

How the Ready Relief Acts!

In a few minutes the patient will feel a slight tingling irritation, and the skin becomes reddened; if there is much distress in the stomach, the Relief will assist nature in removing the offending cause, a general warmth is felt throughout the entire body, and its diffusive stimulating properties rapidly courses through every vein and tissue of the system, arousing the slothful and partially paralyzed glands and organs to renewed and healthy action, perspiration follows, and the surface of the body feels increased heat. The sickness at stomach, colds, chills, head-ache, oppressed breathing, the soreness of the throat, and all pains, either internally or externally, rapidly subside, and the patient falls into a tranquil sleep, awakes refreshed, invigorated, cured.

For sale in Frederictcton by J. W. Brayley, Geo. C. Hunt, Jr., Charles J. Davis, and J. Wiley.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his Office, Nos. 7 and 9 Endicott Street, Boston, on all diseases of a

Private or Delicate Nature.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

Gonorrhœa and Syphilis.

Beneath the treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abcesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

Seminal Weakness.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by the early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, etc., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

HIGHLY IMPORTANT TO FEMALES IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, Nos. 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a very few days. So invaribly certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office hours from 8 A. M. to 9 P. M.

Certain Cure

IN ALL CASES, OR NO CHARGES MADE.

DR. DOW is consulted daily, from 8 A. M. to 8 P. M., as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stand higher in the profession than the celebrated Dr. Dow, No. 7 Endicott Street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article called the French Secret. Order by mail.—Two for $1 and a red stamp.
