WESTINGHOUSE WORLD
CRUISER 84

ALL WAVE SUPERHETERODYNE
A beautiful 8 tube Receiver covering the 5 Short Wave Bands, Police, Amateur and Aircraft, the Broadcast Bands and the Long Wave Band (150-410 kc. and 540-1800 kc.). Possesses sensitivity and selectivity second only to the Model 124. 10 in. Dual Range Dynamic Speaker handles any volume required with almost incredible tone fidelity. Aeronautical Tuning Dial with Band indicator, calibrated for all bands, with Vernier Pointer with Dual Ratio knob for logging Short Wave stations. Tone Control and Automatic Volume Control are features of both Long, Short and Broadcast operations. All new type Micro-sensitive Westinghouse Radiotrons. The handsome cabinet is finished in finest butt walnut and California walnut with trimmings of Zebra wood and maple burl.

Sale Price \$109⁵⁰

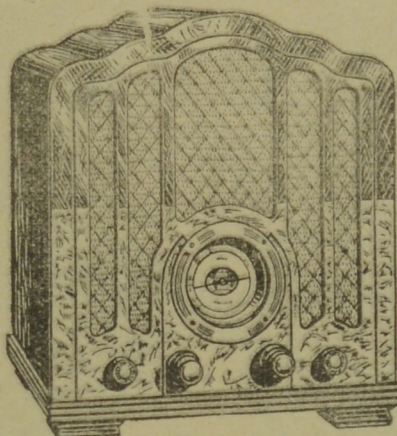

WESTINGHOUSE WORLD
CRUISER 104

DUAL BAND SUPERHETERODYNE
This powerful 10 tube World Cruiser is a receiver of which any owner may well be proud. Covers Short Wave Bands (49-31-25.19 meters) as well as the Standard Broadcast Band, assuring excellent reception of Short Wave programs, together with the finest broadcast entertainment from your favorite stations. Large Dual Range Dynamic Speaker delivers full volume without distortion and possesses tone of unusual richness and clarity. Dual Tone Control, Automatic Tone Compensation, Dual Automatic Volume Control and Westinghouse Noise Barrier, are other exceptionally attractive features of this Dual Band Superheterodyne. Tuning Dial is calibrated for both Broadcast and Short Wave Bands. Cabinet is of highly figured walnut with overlays of Carpathian Elm.
