

Around the Maritimes

There is an increase of \$11,750 in the assessed valuation of property in Windsor for the year 1935. Last year the total was \$1,568,800.

During the ten months of 1935 New Brunswick produced 9,086 barrels of crude petroleum, as compared with 9,303 barrels in the similar period of 1934.

The make of creamery butter in Nova Scotia during November amounted to 288,361 pounds, showing an increase of 29,064 pounds or 11.2 per cent. over the November, 1934, production.

The annual convention of the New Brunswick Farmers' and Dairymen's Association will be held in Saint John, January 15 and 16—for the first time in 40 years. Prospects point to a record gathering.

At the close of their season the Nova Scotia Silver Fox Breeders' Association and The Fur Marketing Service, of Bridgetown, N.S., report a total shipment of silver fox pelts to London, England of 5,600 pelts.

The Dairy News letter issued by the Department of Dairy and Cold Storage shows a marked de-

crease in butter production for the Maritime Provinces for the nine months ending September, 1935, as compared with the nine months ending September, 1934.

Work has started on the new post office to be erected at Perth, N.B., situated in the centre of the village near the C. P. R. station. The structure will be of bungalow style, and the interior will consist of a main lobby, workroom and two smaller rooms. At present about 25 men are employed.

Considerable copper was shipped from Halifax last week to overseas ports. Among the exports were shipments of copper to Liverpool, Avonmouth, Copenhagen, Stockholm, Helsingborg, Norrkoeping, and Manchester. Other metals included zinc, barbed wire, t nplate scrap, iron oxide, and silver.

Structural steel has been ordered by the Department of National Defence for the construction of a hangar at the Royal Canadian Air Force station at Dartmouth, N.S., it is learned. The contract amounts to about \$20,000 and is the first step taken towards the erection of a hangar which has been planned for some years.

The financial condition of the town of Springhill, N.S., shows an improvement according to a statement issued by Town Clerk Allbon. The clerk expressed himself as pleased with the showing made and because all of the 1935 accounts have been paid with the exception of the previous year's sinking fund. There was also an improvement in collections during the year just closed.

W. C. Pitfield and Co., Limited, underwriters of the conversion of \$1,500,000 of Maritime Telegraph and Telephone bonds into \$1,500,000 of new bonds have announced that approximately 85 per cent. of the holders of old bonds accepted the company's offer of conversion into the new issue. The bonds are now quoted at 111½ to 112½, representing a substantial premium over the price at which conversion was offered.

Nearly \$100,000 worth of live lobsters were shipped to New England from south western Nova Scotia during the week ending January 4. This establishes a record for this season, the quantity and value surpassing previous lots. Roughly, there were 2,000 crates shipped from Yarmouth and from the south shore. Each crate contains about 180 pounds, and lobsters are worth on the average, 30 cents per pound.

There were no false alarms rung in during 1935, a report just released by the Yarmouth Fire Department shows. In former years there were generally several, but in 1934 an arrest followed by conviction with a sentence of two years, showed that court officials would not deal lightly with such offenses. During 1935 firemen fought 91 fires. There were 114 fires in 1934. The total value of property damaged was \$240,725 with contents valued at an additional \$117,875.

100,000 IN ANTI-CALLES PARADE

Paraders, 100,000 strong, fill square

President Cardenas watches parade

Expressing their opposition to the return of former President Plutarco Elias Calles, more than 100,000 persons paraded the streets of Mexico City and then massed in the square, top, as PRESIDENT LAZARO CARDENAS, indicated by the arrow in the bottom picture, watched the demonstration from the balcony of the national palace.

HEALTH

by *Dr. J. D. P. Lewin*

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

MILK

Milk is such an excellent food that every reasonable precaution should be taken to have it pure and safe. Milk contains so many of the food essentials that it is almost a mixed diet in itself.

Milk should form a large part of the diet right through childhood. The protein of milk is used to build new tissues, and there is no better source of calcium (lime) which is needed for growing bones and teeth.

Milk is a desirable food at all ages. A pint of milk a day for each member of the family is a fair allowance. Milk is a food, not a beverage, although we receive it in liquid form. Milk is a

cheap food, and it is poor economy to cut down on milk in planning the food budget.

Milk should come from healthy cows. It is obvious that a sick cow will not produce good milk. Furthermore, there are certain diseases which may be spread from the cow to man. The more important of these diseases are bovine tuberculosis, septic sore throat and undulant fever.

Milk should be handled in a cleanly manner by healthy persons. Many of the dangerous disease germs may be spread by milk if milkers and others who handle milk are either diseased or careless. Impure milk is frequently responsible for disease germs gaining entrance into the human body.

Milk can be made safe. Disease

NOTICE OF SALE

TO: HARRY COX, of the City of Saint John, in the County of the City and County of Saint John and Province of New Brunswick, Retired, MARION E. COX, EDGAR L. COX, HAROLD C. COX, VERA COX, H. WILFRED COX, HELEN R. COX, WINIFRED G. MURPHY, WALTER MURPHY, IDA L. RINEHART, HARRY RINEHART, ELLEN C. ANDERSON, ALEXANDER ANDERSON, and the heirs, executors, administrators and assigns of ELLEN E. COX, late of the City of Saint John aforesaid, and ALL OTHERS WHOM IT MAY CONCERN.

NOTICE IS HEREBY GIVEN that under and by virtue of a power of sale contained in a certain indenture of mortgage, bearing date the first day of March A.D. 1921, registered in the office of the Registrar of Deeds in and for the County of the City and County of Saint John aforesaid as number 100379 the second day of March A.D. 1921 in Book 163, page 446 and following pages, made between the said Ellen E. Cox and Harry Cox, Mortgagees, and Alma Retallick, Mortgagee, there will, for the purpose of satisfying the moneys secured by the said mortgage, default having been made in payment thereof, be sold at Public Auction at Chubb's Corner, in the City of Saint John aforesaid, on Saturday, the fifteenth day of February next, at the hour of twelve o'clock noon, all the lands and premises conveyed in said mortgage as:—

A lot and premises on the north side of Britain Street designated on the plan of said City of Saint John as Lot No. 1230.

Together with all buildings and improvements thereon and the rights and members, privileges and appurtenances to the said lands and premises belonging or in any manner appertaining.

FURTHER NOTICE IS HERE GIVEN that if a sufficient offer of purchase is not received for the said lands and premises at said Public Auction the same will be withdrawn from said sale and will be disposed of by private contract without further notice being given.

IN WITNESS WHEREOF Maude E. Retallick and Frederick A. Retallick, executors under the last will and testament of Alma Retallick, have hereunto set their hands and seals the fourteenth day of November A.D. 1935.

(Sgd.) MAUDE E. RETALLICK (L.S.)

(Sgd.) FREDERICK A. RETALLICK (L.S.)

Signed, sealed and delivered in the presence of (Sgd.) J. D. P. LEWIN.

Witness to Execution by

LEWIN & CARTER, (2-14) Solicitors for Mortgagee.

germs are destroyed by heat. Pasteurization makes milk safe because the temperature to which milk is raised during pasteurization will destroy any disease germs which may have gained entrance to the milk from the cow or after milking.

Pasteurized milk is safe milk and it is the best kind to use. Where pasteurized milk cannot be bought, home pasteurization is possible, or the milk may be boiled or milk powder used. Raw milk should not be used in town, city or country because it is practically impossible to be sure of the day-by-day safety of a raw milk supply.

Milk should be used freely by everyone, but only pure safe milk.

McCREADY'S PICKLES

BRICK BRADFORD—On the Isles Beyond the Ice

WHILE THEY AWAIT SIEGFRIED'S RETURN TO CONSCIOUSNESS, BRICK AND HARALD GO FOR A ROW ON THE BAY OF ASGARD

HARALD, WHAT'S THAT HUGE CHUNK OF ICE HANGING OVER THE INLET?

THAT'S THE WHITE WOLF GLACIER—IF IT SHOULD EVER FALL—

HARALD! THE WHITE WOLF MAY SAVE ASGARD IF THE CITY IS EVER ATTACKED!

MY FRIEND, I DON'T UNDERSTAND.

LOOK! A CASTLE GUARD WAVING US TO MAKE SPEED HOME!
