

## New Career For Corn With These Modern Recipes

Will Make Soup, Pudding and Fritters Fit For a King.

By KATHARINE BAKER

Corn-on-the-cob is a gastronomic delight and unhappy the man with millions if he can't enjoy, just once a year, well-buttered corn. But after these golden kernels were cut from the cob, cookery imagination seemed to stop until recently when some delicious new corn dishes were developed.

Corn soup is no longer a glorified White Sauce affair. With up-to-date cooking methods, tiny particles of quick-cooking tapioca "bind" the flavorful ingredients into a creamy, nourishing soup. It's a perfect dish to round out a "slim" meal, or start off a salad luncheon on a chilly day.

**Corn Soup**—1½ cups canned corn, 1 cup meat broth or 1 cup water, 2½ cups rich milk, 1½ tablespoons quick-cooking tapioca, 1 teaspoon salt, ¼ teaspoon sugar, dash of cayenne, ½ teaspoon scraped onion, 1½ tablespoons butter.

Cook corn in broth 10 minutes; force through sieve. Combine with milk, tapioca, salt, sugar, cayenne, and onion in top of double boiler. Place over rapidly boiling water, bring to scalding point (allow 5 to 7 minutes), and cook 5 minutes, stirring frequently. Add butter. Serves 4 to 6.

**Corn Pudding**—⅓ cup quick-cooking tapioca, 2 eggs, slightly beaten, 1 teaspoon minced onion, 2 cups yellow canned corn, 2 cups milk, scalded; 2 tablespoons minced parsley, 1¼ teaspoons salt, dash of cayenne.

Combine tapioca, salt, cayenne and milk in top of double boiler. Place over rapidly boiling water, bring to scalding point (allow 3 to 5 minutes), and cook 5 minutes, stirring frequently. Remove from boiling water. Pour slowly over eggs, stirring vigorously. Add corn, onion and parsley, and mix well. Pour into greased baking dish. Place in pan of hot water and bake in moderate oven (350 degrees F.) 1 hour and 15 minutes. Serves 6. This is delicious with roast beef.

Corn fritters of a new and exceptionally light texture are made by using cake flour in the batter.

**Corn Fritters**—1¼ cups sifted flour, ¼ teaspoons baking powder, 1 can (2 cups) corn, drained, 2 egg yolks, well beaten, 2 teaspoons salt, 2 egg whites, stiffly beaten; ¼ teaspoon paprika.

Sift flour once, measure, add baking powder and salt, and sift again. Combine egg yolks, paprika, and corn. Add flour, a small amount at a time, beating after each addition until smooth. Fold in egg whites. Drop from tablespoon into deep fat (370 degrees F.) and fry 2 minutes, or until golden brown. Serve hot with maple syrup. Makes 12 fritters.

## Their Own Handiwork

A twosome getting together over a threesome! The girls are congratulating themselves on "collaring" these three Laura Wheeler designs that'll grow more popular still, as Spring comes on and coats, come off. ## PASTE AND POWDER EQUALLY USEFUL

If Dentifrice Chosen is Reliable, Either Will Make Teeth Glisten.

By GLADYS GLAD  
"America's Most Famous Beauty"

Down in certain Australian tribes, I am told, when boys first start stepping out with the belles of the town, they knock out all the teeth in their upper jaws. The girls, it seems, consider conspicuous white molars extremely ugly. Teeth, they claim, make men look like dogs, so the boys obligingly discard their ivories. And if you ask me, that's certainly going pretty far, just to please the ladies!

We think, of course, that a good, healthy set of teeth is absolutely invaluable, and that's just as it should be. Healthy teeth are important from many angles. First of all, they affect the health of the entire body. Secondly, they are important aids in the process of mastication; and thirdly they have a great deal to do with facial loveliness.

Today, of course, every normally intelligent woman knows that proper tooth brushing is essential for white, sparkling teeth. And she knows, too, that there are a good number of excellent dentifrices on the market for cleansing the teeth. But what seems to puzzle a good number of women is whether pastes or powders are better for keeping the teeth white and lustrous.

### Both Good

As a rule, as long as the dentifrice a girl chooses is of a well known, reliable brand, it may be paste or powder, as is preferred. Some people claim that pastes contain gummy substances upon which bacterial thrive. But if, as you always should, use a good mouth wash after brushing your teeth, it will thoroughly cleanse your teeth and mouth of any such substances.

Other people sometimes object to powders on the ground that they are likely to contain harsh abrasives. But if you are at all careful in your selection, you may easily procure a powder that is free from grit, infusorial earth or

other insoluble substances. A good dentifrice should assist the toothbrush in removing food particles and germs, should contain a polishing agent, should neutralize acidity, and should be pleasing in taste and odor. If you select a dentifrice that possesses these properties, you'll be doing right by your ivories, regardless of whether it's a paste or a powder that you use.

## WHAT ONE GIRL WORE

By BETTY BROWNLEE

Chiffons and other sheer fabrics in dark tones make most desirable evening gowns at this season of the year. Practical and chic for either town or resort wear, they serve double duty for the lass who plans just a short vacation in the southland and has to budget her wardrobe expenditures.

Illustrated is a nice example of a gown which will give you that well-dressed feeling whether you wear it beneath a tropical moon or in your favorite northern rendezvous. Of triple sheer, it is in the new sherry tone which has taken the fashion world by storm.

The gown features some nice details, especially in its effective draping. Modelled on youthful lines, the silhouette is graceful and flattering. The bodice is interesting, with its crossed effect repeated at the back, and the skirt is trickier than would appear at first glance. A flared box pleat is set into the front, which terminates in a sash that twists around the entire waist line to tie in a small bow at the front. A slight train enhances its flowing lines.

stick would blend harmoniously with your coloring.

### LASHES

Rita: Apply a bit of plain vaseline or odorless castor oil to your lashes nightly before retiring. This will help to promote the growth and thickness of your lashes.

### COMPLEXION

Kathie: Full information on the eradication of pimples, blackheads, enlarged pores and freckles is contained in my "Beauty Culture" booklet. This booklet also gives many excellent make-up hints, and advice on double chin reduction.

### FIGURE

Frances: Constipation may indeed be a cause of overweight. Full information on the correction of constipation is contained in my "New Figure" booklet. The reducing course outlined in this

booklet takes off about eight to ten pounds in two weeks, and should also help you in slenderizing your figure.

### BUTTERMILK

Betty: Buttermilk really isn't fattening at all. As a matter of fact, you may consume as many as two quarts of buttermilk a day, if you so desire.

### STYLE WHIMSIES

An attractive boudoir ensemble is shown in the long tunic pyjamas of satin, youthfully styled with high quilted collar and shoe string tie. The quilting is repeated in cuffs and belt.

Grey is being stepped forward for resort wear this winter, which means it will be one of the popular colors for next spring and summer. The light, clear greens and apple green are also featured for resort and next season's wear.
