OBSTETRICAL OBSERVATIONS

BY
ROBERT BAYARD, M. D. D. C. L.
Formerly Annual Assistant at the Lying-in Hospital of Edinburgh, and subsequently Lecturer on Midwifery and on the Diseases of Women and Children, in New York, &c.

N. B. "Doctor BAYARD has been induced to offer his Observations upon Obstetric Practice, from a conviction that many errors have long prevailed in it, and in the management of Diseases incident to Child-bed Women, which although sanctioned by the older Authors, and Practitioners in Midwifery, and perpetuated by prejudice, are nevertheless repugnant to reason, and admit of refutation by later experience; by the established operations of medicines, by the laws of animal economy, and by anatomical facts. But as the sale of a Medical Work would be very limited in this and the adjoining Provinces, Doctor BAYARD has forwarded a prospectus of the contemplated volume to New-York for Subscribers, and when sufficient encouragement is given to indemnify him for the expenses of publication, the Observations, which will engross a full-sized octavo will be sent to the press." March 26, 1825.
