The Evening Star.

J. E. COLLINS, Editor.
FREDERICTON JULY 27, 1880.

MARRIED.

AT ST. DUNSTAN'S CHURCH, on Friday evening last, the 23rd inst., at 9.30 o'clock, by Rev. J. C. McDevitt, Mr. J. E. COLLINS, late of Newfoundland, to Miss GERTRUDE ANNA, second youngest daughter of the late Dr. Murphy, of this City. [Newfoundland papers please copy.]

THE MIRAMICHI AND NASHWAAK ROAD.

We terminated our last article on this subject rather abruptly, but we take up the thread to-day and shall endeavor to make our argument more clear and conclusive. We have shown from the reports of Sandford Fleming, C. E., and Walter M. Buck, C. E., the estimated cost of construction in building both roads,—that from Gibson to Apohaqui and that from Gibson to Chatham. In the event, then, of the new Company purchasing the New Brunswick Railroad, the question arises, which is the shorter and most advisable route to the sea? Our article has helped to answer that question. Then there is a local feature we have left untouched, and that is the quality of the lands and the forests along the valleys of the Nashwaak and the Miramichi, as compared with those of that region lying between Gibson and Apohaqui. The former contains the most fertile soil our Province can boast, and is densely timbered with superior spruce. The latter is about the most desolate and woe-begone wilderness in the Province. It runs for a great way through the coal measures above which the soil is good for nothing. Dreary swamps and marshes, and scrubby trees are all, except in a few patches, there is in favor of this road locally considered. These considerations should be weighed in reaching conclusions.

Some say the company will build a bridge across the St John at Fredericton, at a cost of about \$600,000, and take their freight and travel by the Fredericton Branch and over the St John and Maine to St. John. We think it is premature to say the company, if in possession of the road, has come to any such conclusion. They no doubt want a route of their own, running through the most profitable regions, and by the shortest way to a salt water port. We think Chatham stands first among the bidding ports, and the Nashwaak and Miramichi Valleys first among the aspiring routes. We shall see further. Now then notwithstanding the apparent disparity in mileage, the odds are greatly in favor of the longer and more direct line to Chatham. When we use the term "longer," it applies to construction and not to travel, as will hereafter be explained. The total quantities of earth, rock and masonry on the Nashwaak, Coal Creek and Apohaqui section, as before given, and not including the one-half mile between Gibson and the Nashwaak, respectively, in cubic yards, are:

TO OUR DEBTORS.

To this large if not respectable class we have a few words to say. If your accounts with this paper are not promptly paid, you will be sued.

The Quebec Parliament has been prorogued; and the country is pretty well reguaged,—say the opposition journals.

In this age of politeness the tramp is no longer a "tramp," but a "foot-pad."

CUT NAIL AND SPIKES

JUST received and in stock, 160 Kegs Cut Nails and Spikes, for sale at the lowest market rates.
June 10. JAS. S. NEILL.

Taking these three principal items of construction only, at the Miramichi estimate, we have:

	Cubic yds.	Value.
Earthwork.	372,266	\$96,815
Rock.	319,686	399,483
Masonry.	18,945	162,465
		\$658,763

Again, we have under the head of bridge superstructure. On the first line, 1,427 tons of iron, representing \$85,020. And on the second line, as before given, 35,248 \$50,272.

Total on construction in favor of Miramichi line, \$708,975.

Again, we have under the Subsidy Act of 1874, 112 1/2 miles, construction Miramichi Valley, \$562,500. 81 miles, construction, to Apohaqui, 407,500 155,000.

Total amount to Credit of Miramichi Valley, \$869,975.

Which at the estimated cost per mile, before given, of 17,222, would be equivalent to a reduction of 50-11 miles of the whole length. Thus the great advantage this route has over that by the head of Grand Lake, to a very distant point from St John, in point of cost of construction and direct transportation, becomes self-evident from the fair and impartial comparison we have drawn regarding our figures which are unquestionably correct. Now when Apohaqui is reached, one has to double back over the Intercolonial 39 miles, making the running distance from Gibson to St. John 120 miles; and this after performing a great circuit round an obscure coal region, involving heavy earthworks massive rock cuttings, and structures of vast magnitude with costly iron superstructures,—all to reach salt water at St. John, or in an opposite direction at Halifax. In the other case you travel straight ahead and reach salt water and a port on the Miramichi Bay, that had lately 125 full rigged ships taking in their cargoes of lumber; up to and above Newcastle; and where every summer season the Gulf Shore Steamers come and go. And should Atlantic steamers come and go, taking New York as a centre, in the distances to Liverpool via Miramichi, Louisburg and Halifax, passing Cape Clear, Miramichi has the shorter distance over Louisburg by 215 miles, and over Halifax by 232 miles.

A MAN'S OWN BUSINESS.

A man isn't supposed to know anything at all about his own business; but if he want to find out just how it stands all he has to do is to go and enquire of any of his neighbors. We have always found this to be the case, and we know of nobody having a different experience. We are, therefore, glad to learn in to-day's Telegraph that the EVENING STAR—our own paper—is to become the NORTH STAR, and is to be published in Chatham some time after Thursday next. We are glad to know the publication of the STAR here is to be suspended so soon, because now we will be able to make provision for such a contingency. We regret, however, the Telegraph did not announce the fact a month ago, and we would be better prepared still for any such change. Owing to a change of book-keepers our ledger and day book are bungled up. We would be thankful if the Telegraph in its next issue would just state how our affairs stand, and what is the exact amount of our assets and liabilities. We wish, also it would state how much paper we have on hand here, and when our note in the British North America Bank for the same will fall due. It is better to be prepared for those things.

We sent a lot of clothes to our washerwoman to-day: we really do not know how many pieces. We wish the Telegraph would give a list of how many handkerchiefs and how many shirts there were in the lot. Could the Telegraph inform us how many pairs of socks the Editor of this paper owns? He really forgets himself; and any little bit of kindly information on the subject, he would graciously receive from the contemporary of his paper. Of course the Telegraph made the announcement we speak of, feeling it would be indicative to allow us to make it first, in the event of any such change being about to take place. We duly appreciate the politeness and courtesy of our contemporary.

CONSUMPTION CAN BE CURED

IS A FACT ATTESTED BY THE HIGHEST MEDICAL AUTHORITIES IN THE WORLD.

A careful observance of the laws of health, and the systematic and persistent use of Scott's Emulsion of Cod Liver Oil with Hypophosphites of Lime and Soda will accomplish all that the art of medicine has to offer in the treatment of consumption, in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the unqualified statement that Scott's Emulsion is being used with better results than any other preparation for consumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Asthma, Anæmia, General Debility, and the Wasting Disorders of Children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

See What Physicians and the People Say About It.

MESSRS. SCOTT & BOWNE:—Gentlemen,—I have frequently prescribed SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES during the past year, and regard it as a valuable preparation in scrofulous and consumptive cases, palatable and efficacious.

MESSRS. SCOTT & BOWNE:—Gentlemen,—Within the last year I have used in my own family, and in my private practice prescribed very extensively SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES and found it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate stomach; which renders it a very reliable agent as a nutritive remedy in consumptive and scrofulous cases.

MESSRS. SCOTT & BOWNE:—Gentlemen,—Within the last two months I have fairly tried SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES, and I candidly declare that it is the finest preparation of the kind that has ever been brought to my notice; in affections of the lungs and other wasting diseases, we can consider it our most reliable agent, in a perfectly agreeable and elegant form.

MESSRS. SCOTT & BOWNE:—Gentlemen,—In September, 1877, my health began to fail and my physician pronounced it spinal trouble; under his care I got some relief from pain, but my general health did not improve, and early in the winter I began to raise blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and morning cough, night sweats, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life and was an object of pity to all my friends. Last September I purchased a bottle of your EMULSION and before it was all taken I was better. I afterwards bought a dozen bottles, with the following results: Coughs subsiding, night sweats stopped, appetite returned, pains in spine disappeared, strength returning, and my weight increased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your EMULSION and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks, "What cured you?" and I answer, "SCOTT'S EMULSION OF COD LIVER OIL." I have a friend who has not spoken aloud for 15 months, and he is getting better. I gave him a bottle and he bought two more, then got a dozen, and says it is his food and medicine. He was given up to die a year ago; but he is improving now wonderfully. My recovery is exciting the surprise of many people, and shall do all I can to make known your valuable medicine.

January 20th, 1879. Very truly yours H. F. SLOCUM, Lowell, Mass.

MESSRS. SCOTT & BOWNE:—Gentlemen,—I got a bottle of your EMULSION and at that time I was so prostrated that no one who saw me thought I could live longer than a few weeks at most. I could retain nothing on my stomach and was literally starving. I commenced the use of the EMULSION in small doses; it was the first thing that would stay on my stomach; I continued its use, gradually increasing the dose; and from that hour I commenced mending, and now am able to ride and walk, and am gaining flesh and strength rapidly
