FREDERICTON MAY 15 1880.

WANTED a dozen or so of school boys to sell the STAR, after school hours. Apply at the STAR office.

The readers of this journal, are hereby informed, that Fredericton is the Capital of New Brunswick, and that York Point, and Marsh Bridge, and Reed's Castle, and MacEvoy's, and the old Bell Tower, and Partridge Island, all remain just as they were!

WHAT CAN BE DONE FOR OUR INDIANS.

It is only necessary to glance through the pages of the report just published by Sir John Macdonald to see that the present Government are not neglecting the poor Indian, once the inheritor of the land that we now so glory in as Canadians. Beyond this again, we have further assurances of the good management of the Indians in the peaceable attitude of all the tribes located within British territory, while the perpetual squabbles between the Indians and the Government across the line, is a disgrace to the Agencies, if not to the American Government. Sitting Bull whose name is a terror far and wide through American inland homes, became a quiet and interesting savage when heading his warriors in Canadian territory—became so bland that several of the enterprising correspondents interviewed him, and found that he "read Milton, admired Byron and Shakespeare, and nigh worshipped Napoleon."

What we desire to say however is, that we think the Government has not done all it might do to improve the habits of the Indian, and to put him at such employment as would better accord with his erratic and peculiar habits. We have often thought that while good reports of how the Indians are doing reach the departments every year, that in a large measure the race is degenerating into thriftlessness and vagabondism. We have before us now a paper written on this subject by a gentleman who has interested himself much in the welfare of the Indians, and has for many years observed the "gradual falling off" which he says must eventually lead to their utter demoralization. He does not approve of the principle of giving money as a donation—and the Government the past year has granted our Indians between \$4,000 and \$5,000,—so long as for the same money, or a little more, the Indians could be induced to take up employment more congenial with their tastes. As we have used some of his ideas, we only take the following portion of his remarks, and we respectfully submit these to the consideration of Sir John Macdonald, who is the head of the Interior Department and who seems zealous in promoting the well being of the dispossessed savage.

It has occurred to me that the proper course by which to aid these people is to find out what business or trade would best suit their nomadic natures and lead them slowly into it by furnishing them with such aid as they might require in the prosecution of the same. Indians in general are but poor farmers; they are entirely ignorant of the business, and indeed it appears to be unsuited to their erratic natures.

WOODSTOCK BRIDGE.

The Woodstock railway bridge is in a precarious condition. An immense pile of logs is heaped across the draw from pier to pier, and the pile continues to accumulate. This offers a resistance to the high water, and the bridge is every moment in danger of going. The piers are twisted around, and crossing has ceased, while the town folk through the bank in hundreds, expecting every moment to see it go.
We may say it would serve the Woodstock people about right that this bridge should go, since they were either too careless or too penurious to tax their city to pay men for keeping the logs from piling up at the draw. This might have been done with pike poles; or better still, shears might have been so constructed as to send the logs safely through. The following is the latest despatch upon the subject:

WOODSTOCK, Saturday 15th. 4 p m
They have taken up the rails, but the bridge is in the same place. They were going to cut part of it away so as to save the rest, but as the water is now falling they have abandoned that idea.

STREET WALKING.
THERE is some kink of a Reading or Instruction Room badly needed for the troops of young people of both sexes, and every station of life that go gadding up and down the streets every evening,—some of the males carrying canes, others smoking pipes. It is a pretty sure sign that those who spend their energies on carrying canes, and smoking pipes, are little good for anything else. They live through the world, where they are little cared for; they die to be forgotten the moment the sod closes over their worthless remains.

QUEBEC FINANCES.
We translate the following from a late Canadian paper at hand:
"We find a proof that our credit is good when the Province is governed by sound and progressive men, established by the fact that Messrs Cohen and Goubert, France, through the intervention of the able member for Yamaska, M. Wurtle, have loaned the Government of Quebec \$4,000,000 at 5 per cent interest, with the privilege of taking two millions more in the course of a year on the same conditions."
The Provincial debentures accepted by the two lenders have been taken by them at 98 per cent., no commission having been charged the Government. As may be noticed, the loan has been contracted in a very advantageous manner for the Province. It is for thirty years. But the Government will have the right to create a sinking fund of one per cent., which at 5 per cent. compound interest will suffice to extinguish the debt in thirty-seven years."

JUDGE PALMER!
THAT unfortunate ship-scuttling case which has now lasted 44 days is drawing to a close. We do not suppose Judge Palmer is likely to take his place upon the Bench and help to give judgment in this particular case. We notice Mr. Palmer left the charging of the jury to Chief Justice Allen also. We wonder at this, because on all great moral questions like this and the Canada Temperance Act—and cases of Forgery, and Perjury—the Bench, according to J. McLeod, Esq., of the *Intelligencer* and other moralists of his pattern, had been sadly in need of a moral and enlightened Judge till Justice Palmer mounted his sacred steps. It will be remembered that the great argument in favor of the morality and legality of the Canada Temperance Act was that an enlightened and moral Judge like Mr. Justice A. L. Palmer, cast his great opinion—even without hearing the arguments on both sides—even long after the time of "judgment" had passed away—in favor of that Act.

MR PICKARD, M. P., and all the Grits of the Province are opposed to that \$150,000 for Eastern Extension, and says the Province has no right to ask for it. We can assure Mr Pickard, however, that Sir John Macdonald and Sir Leonard Tilley and Hon Hector L. Langevin and Mr John Costigan and several others are very strongly in favor of the New Brunswick view of it. That claim will be paid no matter how much the patriotic Mr John Pickard and other enemies to our Province may protest against it.

CABINET changes are rumored at Ottawa. It is said Hon. Mr. O'Connor will get a pious judgeship. In this case it is the strong contention of many of the press that Mr. Costigan should take his place. The vacancy occurring, the place would belong to Mr. Costigan, and there is no one more likely to get it—as there is no other more worthy man.

MR ATTORNEY GENERAL FRASER has likely got through with the Glazier-Tibbitts Claim before this, and may be expected to be home-bound in a day or two.

The Provincial Secretary went home to-day, but will return within eight or ten days. Meanwhile Hon P. A. Landry guards the interests of the country.

LACHINE CANAL
NOTICE TO MACHINIST-CONTRACTORS
SEALED TENDERS addressed to the undersigned (Secretary of Railways and Canals), and endorsed "Tender for Lock Gates, Lachine Canal," will be received at this office until the arrival of the Eastern and Western Mails on THURSDAY, the 3rd day of JUNE next, and the necessary machinery connected with them, for the new locks on the Lachine Canal.
Plans, Specifications and General Conditions can be seen at this office on and after THURSDAY, the 20th day of May next, where forms of tender can also be obtained.
Particulars are expected to provide the special tools necessary for, and to have a practical knowledge of, works of this class, and are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and—in case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and further, an accepted bank cheque for a sum equal to \$250, for the gates of each lock, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the offer submitted.
The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.
For the due fulfilment of the contract, the party obliging whose tender is accepted, shall be subject to a deposit of five per cent. of the bulk sum of the contract—of which the sum sent in with the tender will be considered a part—to be deposited to the credit of the Receiver General within eight days after the date of the notice.
A ninety per cent. only of the progress estimates will be paid until the completion of the work.
This Department does not, however, bind itself to accept the lowest or any tender.
