

# THE FLORENCE NIGHTINGALE OF THE NURSERY.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburg, Penn.:  
A BENEFACTRESS.

Just open the door for her, and Mrs Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will each our "Sister" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colic-ing, and teething period. MRS. WINSLOW'S SOOTHING SYRUP relieves the child from pain, and cures dysentery and diarrhoea. It softens the gums, soothes inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.

**Brown's Household Panacea.**  
Is the most effective Pain Destroyer in the world. Will most surely quicken the blood, whether taken internally or applied externally, and thereby more certainly RELIEVE PAIN, whether chronic or acute, than any other pain-alleviator, and it is warranted double the strength of any similar preparation. It cures pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, and ALL ACHES.

THE GREAT RELIEVER OF PAIN.  
"Brown's Household Panacea" should be in every family. A teaspoonful of the Panacea in a tumbler of hot water (sweetened, if preferred), taken at bedtime, will BREAK UP A COLD. Twenty-five cents a bottle.

**MUCH SICKNESS.**  
Undoubtedly with children, attributed to other causes, is occasioned by Worms. Brown's Vermifuge Comfits, or Worm Lozenges, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely safe in eradicating worms, so hurtful to children. Twenty-five cents a box.

**DELICATE WOMEN.** Pale-faced, Sickly Children, the Aged and Infirm, alike are benefited by the Strengthening and Blood Making Power of "Harrington's Quinine Wine and Iron." It stimulates the circulation, improves the Appetite; and removes all impurities from the Blood. It is the best medicine you can take to give you lasting strength.

THE HORRIBLE, UNSIGHTLY, BLOTCH, ES AND PIMPLES, and the SALLOW, COLORLESS COMPLEXION can be QUICKLY and EFFECTUALLY replaced, by a CLEAR HEALTHY skin. The remedy is "HARRINGTON'S QUININE WINE AND IRON," and is simply "HARRINGTON'S Quinine Wine and Iron," taken according to directions. Try one bottle and be convinced. Price 50 cents per bottle; 6 for \$2.50. For sale by all druggists.

# Local Matters.

## Off for the States.

A Mr. Cavanaugh, shoemaker of this city, left last week for Michigan to take up permanent abode. When settled he will send for his family.

## A Drive in the Country.

A mammoth sleigh freighted with alter boys and two or three others, headed by Rev. Prigleus, drove up yesterday to Indian Village where the worthy priest entertained at his own residence, his band of juvenile guests. The little fellows enjoyed themselves immensely, and Father Prigleus knew how to arrange for that.

## Bleeding the Maple.

There is every prospect of a more than usually good sugar-making season. The cold weather, just past—and present—has prevented sap from ascending the trees; so that when the weather turns warm the saccharine fluid will flow in great profusion. Parties through Kinglester and Prince William are busy making dishes and spiles.

## Obituary.

News reached here this morning of the death of Rev. William McManus in Chicago. Deceased was born in this city, and acted for four years here as coadjutor under Rev. J. C. McDevitt. He has been living the past four years in Chicago where his remains will likely be interred.

We regret to announce the death of Mr. Geo. Wilson of Douglas, which occurred on Sunday night. Deceased was one of the most active men in the county, and for years carried on successful lumber operations; but lying in the camp in his wet clothes after the day's toil, and standing to his waist in the chilly waters during the "drive" sowed the seeds of the disease which carried him away. He was something over 40 years of age, and leaves a wife and 3 children.

## Accident to a Fireman.

George Sinclair, fireman on one of the Gibson trains met a painful accident Saturday last. The train, Conductor McQueen's, was going at its usual speed, and Sinclair in looking out to see if there were any obstructions in front, received a blow on the head from a block of wood, on the top of a pile, close by the road. He fell insensible to the ground, and the train passed on. Arrived at Hainesville Station, the fireman was missed, and the train put back. About two miles down the track they came upon Sinclair, who was standing up, and quite delirious. He could not tell what had happened him, but his head was badly swollen and his foot, it is supposed by contact with the pile in falling, was badly lacerated.

## The Members.

The following may be convenient to our readers as it will show where our worthy legislators are to be found:

**BARKER HOUSE.**  
Hon. Mr. Stevenson, Hon. Mr. Marshall, "Beveridge, "Elder, "McLellan, "Hutchinson, "Hill, "Wood, "Killam, "Barbarie, "Lynott, M. P. P.'s and Hon. Councilors Seely, Jones, Kelly, Young, Hamilton and Robinson.  
**QUEEN HOTEL.**  
Hon. Mr. Perley, Hon. Mr. Crawford, "Covert, "Leighton, Gillespie, Cottrell.  
**PERLEY HOTEL.**  
Mr. McManus, Mr. Ryan, Mr. Kenny.  
**MRS. JASPER N. MURPHY'S.**  
Hon. Surveyor General Adams, "Provincial Secretary Wedderburn, Drs. Lewis and Vail.  
**BRAYLEY HOUSE.**  
Hon. Councilors Harrison, Hibbard and Flewelling.  
**COMMERCIAL HOTEL.**  
Councilors Lindsay and Lewis.  
**WAVERLY HOUSE.**  
Geo. Colter, M. P. P.  
The remainder are quartered on the inhabitants.

# A GENUINE "HUM."

A POTTERY FACTORY TO BE ESTABLISHED.

# THAT DREADFUL N. P.

Within the past few months a firm of enterprising gentlemen from Portland, Me., Colton by name, have had in contemplation the establishment here of a Pottery Works, having been informed that suitable clay was to be procured at St. Mary's. Last week the senior member of the firm came here, and after two or three days observations found that his expectations

## HAD BEEN EXCEEDED.

He found potters clay not alone at St. Mary's, but abounding along the foot of the hills in rear of the city; and this clay he declares to be of the best quality. The Messrs. Colton's have rented premises on Brunswick Street, and will use the old building long ago used as a place of worship, for a main factory. Buildings to adjoin will be put up and the lumber has already been purchased and put upon the ground. The firm are sanguine of success and anticipate a large local trade, but their chief market

## WILL BE BOSTON.

The firm will manufacture all kind of earthen ware,—flower pots and stands, pitchers, jugs, jars, basins, crocks, etc., etc; and they declare that the clay they purpose using is of superior quality. Operations will be commenced early in the season as possible and at first about 25 hands will be employed.

We may now say that the City Council has an opportunity of doing something creditable by granting the firm an exemption from rates for say five years. This would help the firm to overcome some of those difficulties attendant upon the first steps of every enterprise. Beyond this we ought to encourage enterprises of this sort by every means within our power, because in proportion as our manufactures increase, our poor little city rises in importance and wealth. This Pottery Works will make an inspiring "HUM" out about the dreonful regions of Brunswick street, and the crate maker, the clay digger, and the teamster will find remunerative employment. Fredericton stands in the centre of a wealthy country, but it seems to us so far she has not fulfilled her mission. She ought to be able to supply more than money and the few shop articles the farmer gets here for his farm produce. She ought to be able to supply almost every thing required either directly or indirectly. Why should not Fredericton supply Carleton, Victoria, and Madawaska to the North, York, Sunbury and Queens? But let us hope the good time's coming when pluck and intelligence stimulated by the National Policy will achieve more than what we have even ventured to hope for.

## Home Again from the Woods—and Bears.

Large numbers of lumber operators are returning from the woods every day. The crew from the Nashwaak and Miramichi have just returned. They report that in many instances contracts have been overrun; but in no case have any crew failed to get out the amount contracted for. Lumbermen say they see no bears; that such a blessing is reserved to those who get the bear bounty; and others again step beyond these bounds and say that the man who has the most influence with the Bear Commissioner, invariably kills the most bears. Perhaps so. We must say now, that it is just possible to kill out a thriving industry; and if the Government continue this bear bounty there will soon not be a bear in the woods. We need not point out what a great calamity this would be to the large number of gamesters whose names are peppered over every annual report.

## N. B. Scenery to-night in St. Dunstan's.

We have no doubt but St. Dunstan's Hall will be seated to its capacity this evening to see Mr. Taylor's excellent views of St. John and Tobique; and to listen to Mr. Edward Jack's vivid and entertaining descriptions of the scenes. Mr. Taylor's views, are of course nature's true reflex; and the description will be as faithful as the camera's representation. It is refreshing to those who have looked now for many months upon the naked forest, and the snow clad hills, to be ushered in fancy into green glades and before roaring cascades; to look at the great cataraet leap and foam; to see the Madawaska French arrayed in festival robes; to look upon the deserted lumber camp; and to see above the bear in the smile, that doubly inspires and cheers when winter no longer reigns.

## Preparing for Spring.

The crew of the river steamer *Florenceville* went to Swan Creek last week, to fit up their boat, and prepare for the Spring and Summer navigation. It is to be presumed this boat is of some little advantage to the people between here and Woodstock; but she ought to be inasmuch as the Government granted \$10,000 of a bonus to the company. We know of some arbitrary proceedings on the part of some obscure and not another in connection with this boat, and we shall likely take the trouble of explaining ourselves before the Spring freshets is over.

## Personal.

Dr. Travers is at the Barker. He is here attending a meeting of the University Senate, of which body he is a useful and highly respected member.  
Mr. Kennedy F. Burns arrived at Bathurst from England last week. Mr. Burns got a warm reception on his arrival, but while his employe, Mr. John Stewart lives and moves, Mr. Burns may expect a welcome reception from not less than a dozen of well wishers. Mr. Burns is highly encouraged at the prospects in the lumber market, and notwithstanding that for the last two years at least, he has fully paid his stumpage he expects to make a pretty large bill out of both years' operations.

## Gift Entertainment.

We learn there is to be a gift entertainment this evening in the City Hall by the "great original and only Henriques"; at which will be shown everything wonderful and supernatural. A large quantity of valuable, warranted "not trash" will be given away.

## STAR BRIEFS.

—Mr W. Bailey who has spent so many years at Government House, leaves with his family for St. John in a short time. Mr and Mrs Bailey are to take charge of the newly formed "club," and the salary will be a liberal one. We cannot but congratulate the club on the selection.  
—The Calico Carnival last evening in the rink was a failure, not more than 10 or 12 being present.  
**School Inspection.**  
Inspector Mullin will commence the annual official inspection of the city schools on Thursday next. We understand that Mr. Mullin will devote the whole month of April to the schools of Fredericton.

## Accident to the Up-Train.

The Engine Oromotto on the up-train this morning, about 4 miles this side of Fredericton Junction, broke an axle under the tender. Mr. F. B. Edgecombe telegraphed to the Junction to send an engine to her assistance. This caused considerable delay and mails did not reach here till 4.20 p. m.

# Local Legislature.

MONDAY'S PROCEEDINGS.

# BILLS INTRODUCED.

Johnson to alter division line between Kent and Northumberland; also a petition of Michael Savoia and others.  
Mr. Manus to provide for a Water Supply in the village of St. Peter's.  
On motion of McManus, the House went into committee to consider a bill relating to confined debtors. The hon. member supported his bill in an able speech. He pointed out that when the debtor was put in jail the jailor fed him, but subsequently the corporation had to pay for it; and he proposed in amendment that the creditor should bear the expenses of the incarceration.  
Fraser said the law virtually provided for that now; and opposed the bill.  
McManus said the custom had grown up into a steady practice, and it was necessary to make the law imperative.  
Landry thought the Bill was "such as to deserve careful consideration; and admitted of much to be said on both sides. Did not express himself pro or con.  
Progress reported.

# AFTERNOON.

On motion of Mr. Butler the House went into committee of the whole on a bill providing for biennial municipal elections; Mr. Thompson in the chair.

Mr. Butler said he proposed to substitute three more sections, which he had prepared with the aid of the Attorney General, for sections in the bill.  
Mr. Willis suggested that part of the Council should retire each year.  
Mr. Butler said that would necessitate an election every year, the very thing he wanted to do away with.

Mr. Woods said the people generally, when they got a poor man wanted to get him out after a year, and when they got a good man they would keep him. The people had not asked for this bill. The law had been in operation but a short time, and should not be tinkered with.

Mr. Davidson was rather in accord with the last speaker. The yearly elections were not too often. It placed no very onerous duty on the electors.

Mr. Johnson would go for electing the Councilors for four years, the same as members of the Assembly. New members did not understand the business of the country and were placed at a disadvantage. He would support the Bill.

Mr. Butler said the people of his part of the country wanted the change made.

Mr. Woods said if there was anything more than another in which the people were interested, it was the Municipal Council. Good Councilors were not afraid to go back to the people.

Mr. Hill was disposed to accept Mr. Johnson's arguments as convincing. It was the tendency to lessen the frequency of elections.

The first and second sections of the bill were agreed to.

Mr. Ritchie was opposed to the principle of the Bill, and asked that progress be reported, on account of the House being there.

Mr. Johnson said he did not agree with the Hon. Member. Some hon. gentleman went away on their holidays, leaving the rest to do the public business, and then expected every bill to be held back for their return.

[True for Mr. Johnson, and it is quite cheeky of these members to say that business to be delayed on their account. Ed.]  
Dr. Vail thought the House should wait until members could hear from their constituents.

Mr. Covert said he had not heard from his constituents.

Mr. Willis said he had supposed the Bill to be a local one. He was opposed to it more strongly now that he found it to be general. So far as the County of St. John was concerned he knew of no demand for biennial elections.

Progress was reported.  
Hon. Mr. Fraser submitted a return of all correspondence between the Government and the N. B. R. Company as to the running of trains between Aroostook and Edmundston.

# TUESDAY'S PROCEEDINGS.

## MORNING SESSION.

On the reading of the amendment by the Legislative Council to the Bill relating to the Police Courts, St. John, which amendment applies to the provisions of the Bill to Fredericton, Mr. Speaker called the attention of the House to the fact that this appeared to be in violation of the publication rule.  
Willis gave notice of an address for a detailed statement of the expenses of the delegation of Messrs. Young and Hanington to Toronto, the amount paid for travelling expenses to each, the number of days during which the delegation was absent, the time spent in Toronto, together with the sum paid, if any, to each delegate per day for his time, in addition to travelling charges.  
Colter gave notice of an address for all correspondence, petitions, etc., relating to a claim of Mrs. Lucy S. Jones of Fredericton.  
Gillespie gave notice of an address for a detailed statement of the expenses attending the examining of the Kent Railway; the names of the persons engaged in the work, the travelling expenses of each; and the sum paid, if any, to each for his time, with the names of the persons to whom paid, and the length of time for which compensation was allowed.

Wedderburn introduced a Bill to amend the law relating to the local government of the city of St. John, with the petition of the Common Council in its favor.  
Wedderburn submitted an additional report of subsidized landry.

Landry submitted a return giving the papers in connection with the claim of Lewis S. Stevens.  
Butler introduced a Bill to amend the law relating to Justice's Civil Courts.  
Recess.

# Communications.

## A Wretched State of Affairs.

To the Editor of the Star.

DEAR SIR,—I have been informed on the best authority that the member of the Government who from certain physical resemblances has been called the Tallrand of the party, has been acting of late a very base part. I am told he is the sworn and true henchman of that railroad mismanager, Mr. Murray Kay, in consideration of that gentleman having dismissed a certain railway official employed between here and St. John, and against whom the physical Tallrand, otherwise Hon. W. E. Perley, had some spite. In consideration of this service, Mr. Perley has undertaken to betray the doings of the Council in relation to Grand Southern matters, and to give his *underhand* and aboveboard support to this same guy, Mr. Murray Kay. If this is so I think it is an outrage both against the Grand Southern people who are making a legitimate exertion to get their road through, and a grosser outrage against the Government whose secrets Mr. Perley is supposed to keep.

Yours truly,  
RAILROAD MAN.

"Railroad Man" seems to be pretty well posted, but his charges are grave. Yet we had no disposition to suppress his letter; because he is an honorable man. We must confess Mr. Perley has shown a most undignified attention to a man whose public antecedents rest on the grossest, we might almost say idiotic, blundering, and whose personal antecedents are as hazy as Darwin's "origin of matter." The country is so flooded now with upstarts who buy their notoriety through the public prints, that one can scarce write a word in the interests of the country that he does not trample on one of these creatures. As for Mr. Murray Kay, we never should have thought it worth while to waste our space with him, but that he has, doubtless for the sake of further

popularity, thrust himself forward in a public position that at once reveals his calibre both as an insufferably vain person and as an incomparable railway blunderer. We have his railroad record ready and we shall publish it pretty soon.—Ed.]

# New Advertisements.
