

TO SUBSCRIBERS

All monies received for subscriptions will be acknowledged by changing the date stamped on the paper immediately after the name.

Should any subscriber notice that the date is not changed on the first, second or third paper after the money is sent, he should at once send a postal card to the Sun Office, stating when he sent the money and how it was sent, by registered letter, post office order or Express order—SUN PRINTING CO.

NOTICE

\$1.00 per inch for ordinary transient advertising.
For Sale, Wanted, etc., four lines or less, 25 cents each insertion.
Special contracts made for time advertisements.
Sample copies cheerfully sent to any address on application.
The subscription rate is \$1.00 a year, but if 75 cents is sent ONE YEAR IN ADVANCE the paper will be sent to any address in Canada or United States for one year.

SUN PRINTING COMPANY,
ALFRED MARKHAM,
Manager.

NOTICE

When a subscriber wishes the address on the paper changed to another Post Office, the OLD ADDRESS should ALWAYS be sent with the new one.

THE SEMI-WEEKLY SUN.

ST. JOHN, N. B., DEC. 2, 1905.

(From Wednesday's Daily Sun.)
THE LABOR SETTLEMENT.

It is a pleasure to record the settlement of the ship labor trouble and to announce that the St. John men will be at work today. The matter worked itself out to this conclusion: In the natural order of things, for it became evident that the employers could get their work done without meeting the One thing which has been made clear during this discussion is that a high rate of pay by the hour does not always mean large weekly earnings. The ship laborers do not earn large pay for the whole season. The reason is that except for a few days during the whole winter the number is in excess of the requirements. This union is exceedingly hospitable. While the men consider themselves skilled workmen, and many of them are qualified by long experience and great strength, they admit to membership applicants who are unskilled. One consequence is that the ranks are recruited and swelled by men who are attracted from other employments by what appears to be large pay. Some of these are only ship laborers for irregular periods, but when there is no work enough to go round they get the same share as the men who have no other trade.

When it is suggested that this excess of members is one cause of the irregular work the reply is made that once or twice in the winter ships are loading or discharging at all the berths at once, and that the union contracts with the companies to supply at all times all the men required. If the companies demand a contract from the union for three or four days in each season when the usual number needed is not more than half that many they seem to ask too much. It cannot be so great a calamity for two or three ships in a season to wait a day or two for discharge or loading, as that several hundred superfluous men should be on the waiting list all the time. One would not advise the ship laborers to make their trade a preserve and shut out all applicants for membership, but they might give some preference to men who know the trade and follow it as a regular means of livelihood.

These suggestions are offered with diffidence. We do not pretend to be in a position to give advice on such matters. But it does not seem reasonable that the companies should explain the relatively small aggregate earnings of the men by the statement that there are too many members, if as a matter of fact they require all this membership in order to get every man they need at the moment they want him.

PROVINCIAL POLITICS.

It was suggested at a gathering of opponents of the provincial government held on Tuesday in this city that a convention of the provincial opposition should be held after the next session of the legislature. This is an excellent idea. The scope of provincial government and legislative authority is large, and touches more matters entering into the daily life and affairs of the people than are affected by federal authority. The province has power to borrow money, and to pledge the public credit to levy direct taxes is limited only by the power and willingness of the people to pay. Agriculture and education are under provincial control. Nearly all legislation affecting personal rights and property interests is within provincial jurisdiction. The provincial government controls and administers the im-

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

When Sickness Comes to the Little Ones

It Is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family. The mothers look forward with dread to the torrid heat of summer, thinking of their children and the many liabilities to disease that are before them.

Spring and summer are sure to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Peru-na is the best friend she has in times of illness among the children.

The doctors may come and go with their different theories and constant changes of remedies.

The doctor of years ago gave entirely different remedies than he does today. Each year finds some change in his prescriptions and in the drugs he relies upon.

A Multitude of Mothers Have discovered that Peru-na is the standard, and that in all the ailments of spring and summer to which the children are subjected, Peru-na is the remedy that will most quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Peru-na quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body. It simply removes the cause of the disagreeable symptoms and restores the health.

Peru-na is not a narcotic. Peru-na is not a nerve nor a narcotic. Peru-na does not produce any drug habit, however long it may be taken. Peru-na is not a stimulant.

Peru-na is a specific remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peru-na has.

The Mothers Hold Peru-na in High Esteem.

Not only because it has cured them of their various ailments, but because it always relieves the children from the throes and grasp of catarrhal diseases.

We have in our files hundreds of testimonials from mothers whose children have been cured by Peru-na. However, the large majority of mothers who use Peru-na, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Peru-na that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

Peru-na is a public domain of the province. It has the practical veto on lumber limit transfers and deals, which transactions have involved interests of \$250,000 to \$1,000,000 in single cases.

The management and maintenance of the public highways, the construction and protection of public bridges, are provincial matters. Construction and operation of railways, the guarantee of the debts of railway companies, and cash advances to these enterprises in the shape of loans and gifts are included among recent provincial government activities. These and many other powers are exercised by the provincial ministers, in a rather light-hearted fashion, as trustees of the people of New Brunswick. The whole of North America is interested in the evidence given at New York showing how the officials intrusted with the interests of certain insurance companies have carried out their solemn trust. If only we could have such a thorough and uncompromising inquiry into the affairs of the Central railway, or the Restigouche and Western, or the crown land operations of the last five years.

Apart from matters of administration, which it seems difficult to drag fully into the light, while the government has the power to refuse an inquiry, but which are partially revealed, there are many questions of policy which should be discussed by a representative convention. The meeting held two days ago was merely a gathering of subscribers to a fund for the expenses of an organizer who is engaged by the provincial government, though not a conservative gathering, though mistaken head-line might convey that impression. There were men present who would not have been found at a conservative gathering, and liberals are represented on the committee in charge of the organization work. It is quite certain that among the most determined opponents of the Tweedie government are many who are equally pronounced liberals. Why should this not be? Every member of the Tweedie cabinet has protested against the adoption of party lines in provincial affairs. Every man of men makes use of conservative influence whenever it can help him in his political projects. The controlling influence among them is held by men whose political affiliations are easily transferable and whose party allegiance is a negotiable instrument, worn thin by extensive circuitry. The claim of the local government for liberal support on party grounds is no better than its claim on the people generally on public grounds.

Both parties are interested in the establishment of a government in this province which will deserve and enjoy public respect and confidence. No one seriously makes this claim for the Tweedie-Pugsley administration. The provincial ministers when they last appeared before the people, did not plead that their administration was worthy of support. They placed their whole dependence upon Mr. Blair and that minister fought their battle, though he carefully refrained from suggesting that the government should be supported on its merits. All that he asked was that the people should strengthen Mr. Blair's hands, and all that the government candidates asked was the privilege of

The Benefit Which the Children of the United States Have Received From Peru-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Peru-na, for it is in the tender years of youth that light ailments are liable to develop into lasting diseases, thus blasting the whole career of the individual.

The mothers who are bringing up their children today to believe in Peru-na are doing a great work for humanity.

These children brought up to believe in Peru-na from the start, will, when they become heads of families themselves, use Peru-na with unquestioning faith.

Peru-na Protects the Entire Household.

As soon as the value of Peru-na is appreciated by every household, both as a preventive and cure, tens of thousands of chronic, lingering cases of catarrh will be prevented.

Mrs. Thessa Rooke, 258 N. Ashland Ave., Chicago, Ill., Treasurer Ladies' of the Maconches, writes:

"In our home Peru-na is the only medicine we have. Grandmother, mother, father and child, all have used Peru-na. It is our great remedy for catarrh of the stomach and head, colds, and fevers, complaints of which it has cured me."

"We find it of great value when my husband becomes worn out or catches cold. A couple of doses cure him."

"If the baby has colic, or any stomach disorders, a dose or two cures her. I consider Peru-na finer than any doctor's medicine that I have ever tried, and I know that as long as we have it in the house, we will all be able to keep in good health."—Thessa Rooke.

No Doctor Required.

Mr. Edward Otto, 921 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Peru-na. It has done great work in my family, especially for my oldest boy. We had doctor with three or four different doctors and they did not seem to do him any good."

"We gave up hopes of cure, and so did they, but we pulled him through on Peru-na."

"I had several doctors and they said Peru-na was a last resort, and that it did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

Peru-na Contains No Narcotics.

One reason why Peru-na has found permanent use in so many homes is that it contains no narcotics of any kind. Peru-na is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peru-na does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

There are a multitude of homes where Peru-na has been used off and on for twenty years.

Such a thing could not be possible if Peru-na contained any drugs of a narcotic nature.

Milltown.

MILLTOWN, Nov. 27.—The laying of the corner stone of the new Catholic church at Sprague's Falls took place Sunday, Nov. 26. The ceremonies were conducted by the Rt. Rev. Monsignor E. F. Hurley of Portland, Maine, assisted by Rev. N. J. Horan, pastor, and Rev. Thomas McLaughlin, assistant pastor. The ceremony took place at 1.45 p. m. A special train left Calais at 10 a. m., which conveyed a large number from the four places.

Mrs. George Patton, who has been the guest of her mother, Mrs. Sinks, Whitman Mill of Des Moines Creek, has been dead in bed this morning. The child was sleeping with its mother and had shown no signs of illness.

Mrs. Aurelia Colpitts left by today's train for Arlington, Mass., to spend the winter with her brother, Wm. R. Sills. The steamer Beaver went down the bay today with a cargo of hay.

Capt. Luther Martin of Hopewell Cape has gone to New York. W. E. Calhoun of Cape Station began work on the interior of the Methodist church here this week.

HOPEWELL HILL, Nov. 28.—Miss Bertha L. West, one of the primary teachers of the Consolidated school at Riverside, is ill at her home here, with pneumonia. Dr. Carnwath is attending her.

Albert and Blair Starratt, young sons of C. S. Starratt, are confined to their beds with fever.

Messrs. Dobson of Cowdville are cruising J. L. Peck's timber land here this week.

WHITE'S COVE.

25-Considerable excitement exists in this place over a disease that has broken out in the parish of Waterborough, and which is spreading rapidly. The disease, which resembles a mild type of smallpox, has been called by many different names, and has been allowed to go unchecked until nearly every family in that locality is affected with the disease. Some called it by the innocent name of "rash," while others pronounced it northern chicken pox. Yet it was observed that those that were vaccinated did not take the disease, while the ones that were not vaccinated were susceptible to it. Whatever the disease is it is a loathsome one, and steps should be taken to stamp it out at once.

J. E. Austin received a telephone message today announcing the death of his brother-in-law, Samuel H. Norbury of Belvidere Creek, Kings Co.

Messrs. are prevalent in this place and many are on the sick list. Mr. and Mrs. Myles Farris of Mill Cove are receiving congratulations upon the birth of a daughter.

HARCOURT.

HARCOURT, N. B., Nov. 29.—Mrs. Henry Bowser, for several years a resident of Maine, is visiting Mrs. Clarence Wry at her old home here.

Mrs. H. M. Buckley, wife of the I. C. R. station master at Gloucester Junction, is visiting at her father-in-law's, James Buckley, here.

James Hutchinson of Boston, visited Harcourt today.

MONCTON, N. B., Nov. 28.—R. O. Donald, the well known contractor, is building an open air skating rink at Sunny Brae, one of the rising suburbs of Moncton. The rink will be enclosed by a wall of spruce boards. Mr. Donald is also starting a new industry, the making of cement blocks for building purposes. Some buildings and quite a number of cellars walls have been built in Moncton of cement blocks.

P. Gallagher has been awarded \$700 for damages in connection with the recent fire in the Hotel Minto. Mr. Gallagher entertained the firemen at a complimentary dinner last night. About forty people sat down to an excellent dinner. Capt. J. B. Masters, representing the board of fire insurance underwriters, was also among the guests. The first of a series of dances by the Waba-Waba Boating Club was given

Provincial News

Sackville.

SACKVILLE, Nov. 29.—The death of Mrs. Geo. Rogers occurred yesterday after a few days' illness. Deceased was 83 years old. She is survived by a husband and eight young children. Funeral will be held at 2 p. m. tomorrow. Rev. E. L. Steeves will conduct the service.

Rev. Dr. Borden, principal of Mt. Allison Ladies' College, was very fittingly remembered on Monday evening by the faculty. Dr. Archibald on behalf of the faculty presented him with a handsome silver fruit dish, with a few appropriate remarks. This was given in celebration of Dr. Borden's birthday anniversary and his 20th anniversary as principal of the college. He also received greetings from fifty teneas. Dr. Borden had been associated with him since assuming the principalship of the institution.

Sackville Agricultural Society held their annual meeting on Monday afternoon. The following officers were elected: Frank Trueman, president; J. W. S. Black, vice pres.; P. A. Dixon, secretary; John T. Carter, treasurer; S. E. Dixon, F. E. George, A. C. Fawcett, B. M. Fawcett, Albert Anderson, George Trueman, Walter Bulmer, Albert Colpitts, Gideon Carter, additional members of executive; A. B. Copp, auditor.

The marriage of Miss Phoebe Louise, daughter of Mr. and Mrs. Charles Estabrook and Wm. Wheaton of Midgie, is announced for Dec. 18th.

The death of Mrs. Alexander McDonald took place at the home of her daughter, Mrs. J. J. Sweny, Melrose, N. B., on the 20th inst., after a month's illness. Deceased was 78 years old. She is survived by two daughters, Mrs. Sweeney and Mrs. Wm. Savage of Melrose. Funeral took place Tuesday and was largely attended, interment at Melrose cemetery.

The death of Miss Charlotte Fawcett, daughter of Wm. F. Fawcett, Upper Sackville, occurred last evening at 9 o'clock. Funeral will be held tomorrow at 2 p. m.

We notice with slight surprise that several of the government organs find in the disclosures concerning combines in restraint of trade, strong arguments against a protective tariff. The tariff in operation is the creation of Mr. Fielding, who, a few years before he became a minister, prepared the Ottawa convention resolutions concerning the conservative tariff. Mr. Fielding had created monopolies and combinations. Increased the cost of living and promoted conditions such as the government press had now to be in existence. Yet Mr. Fielding has

strengthening Mr. Blair's hands. Even this they refused to do when Mr. Blair needed support. But that is not a provincial issue.

When the next chance comes it is hoped that the electors of the province will give particular attention to their own business as New Brunswick people. They must consider how much they are gaining out of the enormous annual increase of the public debt; how much they have got out of the repeated prodigal advances to the Central railway speculators and adventurers; how their highways and their pockets and their municipal rights have been affected by the road act; how much benefit the average farmer is obtaining from the costly, cumbersome and erratic agricultural policy; whether it is worth while to pay an attorney general \$10,000 a year for services that Attorney General Fraser and Attorney General King performed for her home; whether the crown lands are administered for the benefit of the public and of bona fide lumbermen, or in the interest of speculators and politicians with a view to the sale of the land; whether it may not be time to consider whether it may not be time to leave the present administration and to take up seriously the reformation of provincial government methods.

THE TARIFF AND THE COMBINES.

The tariff commission and the inquiry into trade combines are proceeding simultaneously in Ontario. Most of the journals discussing these matters assume a connection between them. No doubt a high tariff makes it more easy to organize a combination in certain articles. But we know that such combines may exist when there is no tariff. An extreme case in point is the thread trust in Great Britain, one of the most successful of the scores of vast trade and industrial combinations in the mother country. The most extreme example of an industrial and commercial monopoly in the United States in the Standard Oil trust, which is not assisted by the tariff. Canada suffers by this monopoly which now controls the Canadian product as well as that of the United States. If there were no duty on oil the Standard Oil people would probably be better satisfied, for they might close the Canadian works, and supply this country wholly from their establishments in the United States. The binder twine combine operates in both countries, but is controlled in the United States. It was greatly assisted by the reduction in the duty.

We notice with slight surprise that several of the government organs find in the disclosures concerning combines in restraint of trade, strong arguments against a protective tariff. The tariff in operation is the creation of Mr. Fielding, who, a few years before he became a minister, prepared the Ottawa convention resolutions concerning the conservative tariff. Mr. Fielding had created monopolies and combinations. Increased the cost of living and promoted conditions such as the government press had now to be in existence. Yet Mr. Fielding has

Per-na Should Be Kept In Every Household

Where There Are Little Children.

Per-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But have Peru-na on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the affections of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Mrs. Amelia Sailer, Monasha, Wis., writes:

"I have used Peru-na for a number of years. It cured me of chronic catarrh which I suffered with from infancy."

"When my three children were born they all had catarrh, but I have given them Peru-na and find it very effective in ridding them of this horrible trouble. I find that it is also good to give them as a tonic and a preventative of colds and croup."

"In fact, I consider it a household blessing. I would not know how to raise my children without it. I am pleased to give it my recommendation."—Amelia Sailer.

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

All correspondence held strictly confidential.

Mr. G. H. Farmer, New Martinsville, W. Va., writes:

"Our little son, Harry, is well and healthy now and we think it we do as you directed us, he will keep his health and grow strong."

"We know that our little son's life was saved by your wonderful medicine, Peru-na, and we shall always praise Peru-na and use it in our family when needed."

"Should we have any more catarrhal trouble in our family, we shall always write to you for treatment."—G. H. Farmer.

Mr. Howard Andrew Sterner, Muddy Creek, Pa., writes:

"I have Peru-na in my house all the time and won't be without it. It is good for children when they take a cold or croup. It cured my baby boy of croup."

"I have introduced Peru-na into six families since I received your last letter, and four have seen relief already."—Howard Andrew Sterner.

Mr. Howard Andrew Sterner, Muddy Creek, Pa., writes:

CITY NEWS.

Recent Events In and Around St. John.

Mr. and Mrs. R. H. Fullerton, of Long Beach, one day last week celebrated the 20th anniversary of their wedding. About seventy guests were present in the evening, and Rev. H. Pierce presented Mr. and Mrs. Fullerton with an address and a number of handsome gifts, including a sideboard, parlor table and other useful and valuable articles, on behalf of those present. Mr. Fullerton replied fittingly, thanking his friends for their esteem and good will. A very enjoyable evening was spent.

Edward McCarthy of Darnley Bridge wishes to thank his many friends and neighbors for the great kindness extended towards himself and family in thinking of his affliction, and to the pastor, Rev. E. J. Bates, for his words of compassion and consolation both at the home and at the grave.

The hull of the burned ste. Clifton lies on the beach at Gondola Point. It is at the disposal of the underwriters. The steamer was insured with Lloyd's for \$5,000, but the loss has not yet been adjusted.

Senator Polier's mill at Shediac, which was burned a couple of weeks ago, was insured for \$2,000, of which the Hartford Co. had \$1,000 and the Sun and Norwich companies, \$750 each. The loss has been fixed at \$1,500.

Murphy's Hotel at Dalhousie, which was destroyed by fire a day or two ago, was insured for \$3,000. Of this amount the Anglo-American and Equity companies had \$1,500 each on the buildings, and \$400 each on the furniture. Edgar Fairweather will go to Dalhousie today to adjust the affair.

A SUCCESSFUL HORSEMAN.

Never allows his horse to suffer pain. He always uses Nerviline, which is noted for curing stiffness, rheumatism, swellings and strains. Nerviline is just as good inside as outside. For cramps, colic, and internal pain, it's a perfect marvel. In the good racing stables Nerviline is always used, because it makes better horses and smaller veterinary bills. Twenty-five cents buys a large bottle of Nerviline; try it.

SAN FRANCISCO, Nov. 29.—Fire today destroyed buildings causing a loss of \$25,000. The heaviest loss was the Union Iron Workers and the Golden State Miners Foundry Co.
