

YORK COUNTY COUNCIL MEETING

Coun. Simmons is Warden For This Year.

Indebtedness Is Fast Being Reduced

Financial Statement—Committees Chosen.

FREDERICTON, Jan. 16.—The semi-annual meeting of the York County Council opened this morning, with Warden Scott in the chair. There was a full attendance present of the councillors. Mr. Scott announced his resignation from the wardenship, and on motion, duly seconded, Councillor Simmons was unanimously elected warden. In accepting the office the new warden made a suitable and appropriate address.

Auditor McCurdy stated that when he assumed office fifteen years ago the bonded indebtedness of the county was \$16,900, with \$500 cash on hand. As the accounts showed on November 1st last the bonded indebtedness had been reduced to \$8,200, while the cash balance at the bank was somewhere about \$5,000. The auditor felt that it was a most encouraging condition of affairs. Secretary-treasurer Bliss supplemented the words of the auditor that the county accounts were in a very gratifying condition. He placed before the Council the statement of receipts and expenditures, and explained in detail its substance. The receipts for the year had amounted to \$27,585.61, and expenditures to \$27,166.83, leaving a balance of \$418.78. This, added to the balance carried over from 1904, viz., \$431.89, gave a total balance on hand of \$850.67.

The warden appointed the following committees:

Secretary-treasurer's Accounts—Couns. Scott (chairman), McNally, Goodspeed, Grosvenor, Fred Pond.

Administration of Justice—Couns. McNally, Grosvenor and Robinson.

Public Accounts—Couns. Grosvenor, McKee, Brewer, Simmons, Haining, Keene, Murray, Goppley, McMillin, McNally, Masten, Goodspeed, and C. W. Pond.

Assessments—Couns. Robinson, Reynolds, Carr, Scott, Thompson, Moffatt, Morgan, Yerxa, Fraser, Brooks, Fred Pond and Douglas.

The board of health report was presented, showing an expenditure in the vicinity of \$200. The Council adjourned at 4.30 to meet again tomorrow morning.

Lost Appetite Quickly Revived

FERROZONE SHOULD BE TAKEN AFTER EACH MEAL, AND A RAPID IMPROVEMENT IS SURE TO FOLLOW

Distate for food often follows La Grippe, cold, or is brought on by over exertion, worry, or is a dangerous condition and paves the way for more sickness. On this account it should be at once corrected by the regular use of Ferrozone.

A new and wonderful medicine is Ferrozone. It instantly imparts a real zest for food, and gives power to the stomach to digest and assimilate all that is eaten. Dyspepsia and indigestion are quite unknown to those who use Ferrozone, simply because it digests food so quickly, that it has no time to ferment or sour on the stomach.

Ferrozone regulates the bowels, quickly remedies urinary disorders and causes all the organs of the body to perform their functions, with proper regularity. If the liver is torpid, or the kidneys not eliminating as they should, they soon restored to normal action, and the poisons that might otherwise be retained in the body to cause disease and ill health, are carried off through natural channels.

The surest road to perfect health is Ferrozone. Young girls who have been accustomed to eat almost nothing at breakfast soon get over the bad habit by using Ferrozone, and as a result grow into healthy, vigorous womanhood. When people get up in years and lose the strength and vim of youth, they need a good tonic and blood builder to enable them to resist the trials of our vigorous winter, and this is where Ferrozone can be used to great advantage.

Both the young and the old, the weak and the strong, male and female, can derive untold benefit from Ferrozone. It is guaranteed to contain no opiates or injurious drugs, and will do just what is claimed for it. Drugists recommend and sell it, price 50c. per box, or three boxes for \$1.25. Sent to your address by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

A NEW OPENING FOR N. B. HARDWOODS.

FLORENCEVILLE, Jan. 15.—W. E. Tompkins of Woodstock, general agent for the Massey-Harris Co., while here last week closed a contract for the company with F. B. Smith for one hundred thousand feet, ten car loads, of birch plank, to be shipped to Brantford, Ont., the coming summer. The company will use this lumber for machinery poles. Mr. Tompkins intimates that if the company is satisfied with the quality of the hardwood, this trial order will be the inception of a very large consumption of the hardwoods of New Brunswick in the manufacture of agricultural implements.

AMERICAN LEGISLATION.

The Philippine Tariff Bill Passed At Last.

Congress Has Begun Its Discussion

on Railroad Rates—State Legislatures.

WASHINGTON, Jan. 16.—The Philippine tariff bill was passed by the house today substantially as it came from the ways and means committee. The vote was 238 to 71. Rice was made subject to the same tariff as sugar and tobacco, 25 per cent. of the Dingley rates, and one or two changes were made as to language.

This result was attained after decidedly the most strenuous day of the present congress.

The many amendments which were introduced and went to the floor in the debate and against the rock which the house committee on rules constituted, left much legislative wreckage, and many records only useful for future political purposes.

The strongest plea for "insurgent support" was made in behalf of Champ Clark's amendment reducing the differential on refined sugar. The minority sought to duplicate the house record made on the Cuban reciprocity act, but they reckoned without their host today, as no republican opponent to this measure stood with them to overrule the decision of the chair.

The committee substitute met with only the support of the minority and went down under a vote of 231 to 106. On the final passage of the bill the "insurgent" demanded a roll call, that their record might be preserved. An effort which was sustained by the democrats, but opposed by all but three republicans, was initiated by Mr. McCall of Massachusetts, to commit the United States to the policy of granting independence to the Philippine Islands as soon as their inhabitants can be prepared for self-government.

The bill admits goods of those islands into the United States free of duty except sugar, tobacco and rice, upon which a tariff of 25 per cent. of the Dingley rates is levied.

It provides that after April 11, 1909, there shall be absolute free trade each way between the United States and the Philippines. It also exempts Philippine goods coming to the United States from the export tax of those islands. Merchandise from either country shall be subject to the internal revenue tax of the country in which such merchandise is withdrawn for consumption.

The house adjourned at 6.30 o'clock.

WASHINGTON, Jan. 16.—Unexpectedly the senate today found itself considering the railroad rate question, which was precipitated by Mr. Fulton's taking the floor to make a speech in explanation of an amendment offered by him to the Doolittle bill.

FOUR FILLED IN N. Y.

TUNNEL ACCIDENT AND CHEESE CO.

Foreman Saved Two and Nearly Lost His Life

Compressed Air Pipe Burst and Left Men to Die Like Rats in a Trap

NEW YORK, Jan. 15.—Two negro tunnel workers were killed by suffocation and Calson disease. Two were drowned, two others were seriously overcome, and the white foreman and assistant suffered severely in rescuing those who survived, when a compressed air pipe burst in the East River tunnel, on Man O'War Reef, opposite Forty Second street early today. The bodies of the drowned men still lie at the bottom of the shaft, twenty feet below the river level.

The six tunnel workers were at the bottom of the shaft today when Harold R. Shaller, the foreman, found that the six-inch air pipe by which the pressure of air was maintained in the lower compartment had burst and the pressure of air upon the walls of the compartment had ceased. The six negroes lay on the bottom of the shaft with water oozing through the debris and rising over them.

Shaller placed two of the men in the bucket and gave the signal for hoisting to the surface. When the bucket was again lowered into the shaft the foreman's assistant, Earl Verboeck, came with it. They placed two more men in the bucket and then Shaller fell to the ground unconscious. His assistant was barely able to place him in the bucket, crawl in also and give the hoisting signal.

The two others were left in the compartment. It is believed they were already dead as were the two who were brought to the surface in the final trip. Shaller recovered consciousness at the top of the shaft. He was later put under arrest by the coroner but was paroled in the custody of the superintendent of the work and remained at Reef.

HAVELOCK BUTTER

Annual Meeting Shows Receipts of \$16,716.33

Most Successful Year in the Dairying

Business—Officers Chosen For 1906.

HAVELOCK, N. B., Jan. 13.—Last Tuesday the annual meeting of the Havelock Butter and Cheese Manufacturing Co. was held in the public hall. The following officers were all re-elected: Chas. B. Keith, president; Truman V. Freece, vice-president; Calvin F. Alward, secretary-treasurer, and Francis A. Alward, auditor. Nine directors manage the business and the following with the president and vice-president constitute the board for the ensuing year: Jas. Carson, Joshua Keith, William Thorne, Silas Thorne, Calvin Alward, Maurice Keith and James Coates.

The factory here is run all the year and patronized by country averaging a radius of four miles. There is a factory at Canaan, one at Lower Ridge, another at Killam's Mills and two at Corn Hill, distant from this one of 10, 4, 5 and 6 miles respectively.

Mr. Keith has been in charge of the factory for the last year and continues in charge. He has an assistant all the time, the present one being Mr. Lockhart, and in the rush of summer two assistants are employed.

The factory year begins Nov. 1 and ends Oct. 31. The auditor's report will show what a helpful, profitable industry the cheese and butter one must be to each producer. About half the year is given to each product. The following report, the best in the history of the industry, is as follows:
